INVITED HIM AGAIN

Mayor Gets Second Call From
the Sunday Observance
Meeting Committee.

ASKED NOT TO SPEAK

Is Informed That His Views
Are Not Desired at the
Meeting.

Mayor Truelsen has been invited not to speak at the mass meeting to be held in the First Methodist church Sunday, in the interest of Sabbath observance. This invitation was extended this morning through the committee that invited the mayor to speak several weeks ago, and it is the cause of certain rumormongers that have been circulating through the corridors of the city hall today. The committee called on the mayor this morning and, after telling him that the mass meeting, in charge, had decided that his views on Sunday observance would not be accepted, the committee quietly departed. It took the mayor quite a while to comprehend, and then the officials on the lower floor began to tell each other that the earthquake season had begun unusually early this year, and were wondering how long it would be before the roof fell in.

The mayor says that he has accepted the invitation and will not attend the meeting, but he feels that the committee has not treated him fairly in this matter. He says that when asked to make an address before the mass meeting for Sabbath observance, he promised to do so, but said that he did not care to participate in the meeting if it were going to be narrow minded and insist that all work should stop on Sunday. The mayor says that there is some work besides that commonly placed under the head of "works of necessity and mercy" that has to be done on Sunday, and while he is in favor of reducing this to the minimum, he says that it can not entirely be done away with. He cited the case of Evangelist Schieffeler last winter, who refused to ride to Lakeland in a street car on Sunday morning, but took a hack. The mayor says he does not believe in traveling on Sunday any more than a person possibly has to, but he can not see the difference between traveling in a street car and in a hack. He says that he does not approve of Sunday ball games and other worldly pleasures on Sunday, but that he would not think of going before a mass meeting and making a narrow minded address.

It is rumored that the reason that the committee reconsidered its invitation to have the mayor speak at this meeting was that the grand jury recently censured the city administration, and that Sunday is not strictly observed in the closing of the saloons. The mayor says that he has never forced himself on an audience where he was not wanted, and he will make it a point to keep as far away from the scene of Sunday's conference as is possible without too great inconvenience to himself. Notwithstanding the absence of the mayor, this meeting promises to be one of the largest mass gatherings of a religious character ever held in Duluth. Church workers and laboring people less prominently identified with the regular church work have long been of opinion that Duluth is very much after the order of French cities in Sunday observance. Thousands of men are compelled to work every Sunday during the summer along the harbor front and in the mills, and this mass meeting is called to take some steps in inaugurating a campaign against Sunday work

and general Sunday desecration. It is probable that this will be the first of a series of meetings, in which some of the representative business men in Duluth will take part. Sunday's meeting will be held at 3 o'clock in the First Methodist church, will be presided over by Dr. Alexander Allen, pastor of the Pilgrim Congregational church. Addresses will be made by Dr. T. H. Cleland of St. Paul, pastor of the First Methodist church; John McMurphy, president of the Federated Trades assembly; Edward Kriz, formerly president of the Trades assembly and one of the foremost labor leaders of the city, and it is probable that short addresses will be made by Dr. T. H. Cleland of St. Paul, pastor of the First Methodist church; Special and appropriate music will be furnished by the First Presbyterian church quartet, under the direction of Miss McKay. It is expected that union labor organizations will be very largely represented, and the interest shown in the meeting by the different labor unions has been a pleasant surprise to those who have had the arrangements in charge.

ONE ROAD APPEALS.

Duluth Transfer Railway Not Satisfied With Viaduct Decision.

The latest decision of Judge Englin in the Garfield avenue mandamus case is to go to the supreme court, on the appeal of the Duluth Transfer Railway company, one of the respondents, and this leaves the matter in rather an odd condition. The court's decision, under the orders of the supreme court, fixed the portion of the bridge each road was to build separately. This has been done, and the Duluth Transfer company has appealed from the decision. The orders of the court were to the effect that the roads were to build their share immediately. If the other roads follow this out and the Duluth Transfer waits until its case is decided in the supreme court, there will be a hold in the middle of the viaduct between the work of the Northern Pacific and the St. Paul & Duluth. A start will probably not be made, however, until the whole matter is settled.

\$33.35 New York and Return. ACCOUNT DREWY CELEBRATION, VIA ST. PAUL & DULUTH R. R. Tickets on sale Sept. 23, 25 and 27. New York, and return, \$33.35. Choice routes. Full information at city ticket office, 22 West Superior street.

CAMERON CASE STILL ON. Trial Will Run Over Into Next Week.

Judge Englin in district court this morning was still hearing the case of D. A. Cameron against the Duluth Street Railway company, and it was not expected to go to the jury before next week. Judge Moer this morning took up the trial of court cases, or rather he was ready and willing to do so if there had been any cases to try. The setting of cases for the day melted off without one coming to trial. The following cases were continued: M. J. Cameron against G. J. Marbof et al., J. T. O'Neil et al. against Andrew Erickson et al., John N. Richards against the St. Louis Land and Improvement company, Mary G. Parker and other intervenors, August Hugmair against Stephen H. Jones. The following cases were stricken from the calendar: C. E. Dickerman against the Syndicate Investment company, William Little et al. against A. T. Bliss et al., T. H. Martin against Alice S. McKinnis, and Justin Wentworth against the estate of J. P. Flötz, deceased. The case of the Sugar Drug company against P. H. McGarry was dismissed.

PRICES TO ADVANCE

Restaurants Will Give Them a Substantial Boost on Oct. 1.

SUPPLIES ARE HIGHER

Rise in Meats, Milk, Etc. Is the Cause of the Raise.

After the first of next month the sentimental injunction to "eat, drink and be merry" will be appreciated by the small army of Duluthians who sit in down town restaurants and boarding houses. These people will so far as is known, continue to eat and drink, but when it comes to settling with the cashier it is not probable that there will be any great amount of hilarity. The restaurants, or more properly speaking the class of restaurants that keep open all night, will inaugurate a general rise in prices after Oct. 1, and while the exact rise has not yet been determined, it will probably be a 5-cent increase on all meat orders. The restaurant keepers have had their heads together for some time past, and have concluded that they will either have to follow the example of nearly all other lines of trade and raise prices, or else shut business.

They claim that this raise is made necessary by the advances in meats, coal, eggs, butter, milk and potatoes. Meats have advanced 10 per cent in the last year, eggs are going up from a half cent to a cent nearly every day, and the milk dealers, who have been furnishing the restaurants with milk up to the present time, have notified the restaurant men that there will be a strong increase in the price of milk on Oct. 1, and if this does not suit, it will be well to look elsewhere for milk. The rise in coal, too, has been instrumental in sending up the price of the necessities of life as served in the restaurants.

This morning John J. Haley, of the Duluth, says that he has heard that there would be a rise in prices on Oct. 1, and in speaking of the changed condition of things he said that he had seen a lot of the restaurant men, and that they were all looking for a contract for the season's coal. He said that the restaurant men were all looking for a contract for the season's coal, and that they were all looking for a contract for the season's coal.

For more than a month past private boarding houses all over the city have been quietly increasing the cost of board, giving the same reason that the restaurant men do.

Probably the most striking raise is reported from Two Harbors, where it is said that the hotels that make a practice of boarding transient men have increased the price of board from \$20 to \$25 a month.

A well known restaurant man said this morning that while the restaurants all summer have been doing the largest business on record, there is scarcely a place in town that has had a bad day. He said that the restaurants are all doing well, and that the restaurants are all doing well.

HOW EXPLAIN THIS?
Superior Paper Says Coal Is 25 Cents Cheaper Than.
Of late several little items have appeared in the papers in which the coal men expressed the gravest state of their feelings over the coal things that had been said of them because they hoisted the price of coal Sept. 15 and intended to do it again Oct. 1. They said in these little items that they really could not help it. Coal had not gone up in proportion to other commodities, and the advances were more than covered by the increases in rates of transportation. This would look reasonable, and some people might get to believe it were it not for the fact that in Superior, according to the Evening Telegram, the price of coal is still \$20 per ton, the last raise to \$20 not having gone into effect there. This is explained by stating that the Superior coal men are not so closely organized as are those of Duluth, so when the Duluth men resolved to make the retailers profit 25 cents more per ton they had no difficulty in doing it. The rates to Duluth and to Superior are precisely the same so this would seem to do away with the coal man's defense that he had to raise the price because the rise in rates. It looks a little as though while raising rates because of the freight rates he took occasion to get in a little raise in the middle of the month for his own benefit, which, of course, he has a perfect right to do if he can.

RELIABLE AMMUNITION, GUNS, RIFLES AND SPORTSMEN'S SUPPLIES OF ALL KINDS.

MARBLE'S SAFETY POCKET AX.
The handiest tool a sportsman ever carried. With metal lined, hickory handle, folding guard and patent handle fastening. This ax combines several very desirable features. It is made of the best material, and is of much less expensive construction and finish than any other ax of the kind. It is made of the best material, and is of much less expensive construction and finish than any other ax of the kind.

PRICE \$1.50.

THE TAX LEVY. Will Be Smallest the County Has Known For Many Years.

The talk about the levy the school district may or may not make brings up the fact that this year's tax rate in the city of Duluth, regardless of what the school board may decide to do, will be the smallest ever experienced here. Last year the rate was 2.1 mills, and this year it will be 1.7 mills, and this year it will be 1.7 mills, and this year it will be 1.7 mills.

As stated before, the rate last year was 2.1 mills. This year it will not be over 2.1 mills, and if a determined effort is made to lessen it it can be put several hundredths lower than that. As the school board has not yet decided on its rate, it is at hand as yet as to what sort of a rate the city will make. A good deal depends upon that, but as all of the other divisions are lowering their levy this year, there would seem to be no reason why the city should not do the same. Last year the city's rate was 1.7 mills, and it is figured at 1.7 mills in making up the prospective levy of 2.1 mills. If it can be lowered that will make the rate all around 1.7 mills, and it will not be more than 2.1.

If a combined effort is made on the part of the city, school district and county, it is possible that the rate can be put at 1.7 mills, and it may get down to this. The school district's rate last year was 1.1 mills, and this year it will be 1.1 mills, and this year it will be 1.1 mills.

Just now, while every effort of every loyal citizen is directed toward the bettering of the city's condition, it is not suggested that a better move could not be made than to take in that rate. Making a low tax rate all around, and so that the city and county, as well as the school district, all reduce their levy, and make a tax rate that will be lower than the one suggested. This is a suggestion that is being made, and it is being made.

The school district's rate last year was 1.1 mills, and this year it will be 1.1 mills, and this year it will be 1.1 mills. The city's rate last year was 1.7 mills, and this year it will be 1.7 mills, and this year it will be 1.7 mills.

His Arm Torn Off.
A serious accident occurred over at West Superior yesterday afternoon. A young man named Harry Hill, who was engaged in lowering some weights in an establishment at the corner of Eighth street and Duluth avenue, had his arm torn off above the elbow. Notwithstanding the serious nature of the injury, the doctors think that young Hill will recover.

VOICE IN SICK ROOM.
Speak in low, cheerful, but perfectly distinct tones, if there is a sick person in the house. It is the duty of the sick person to speak in low, cheerful, but perfectly distinct tones, if there is a sick person in the house.

MASSACHUSETTS TICKET.
Nominees of Democratic State Convention at Boston.
Boston, Sept. 22.—The ticket nominated at the Democratic state convention yesterday is as follows: Robert Treat Paine, Jr., of Boston, for governor, by acclamation; John H. Morrison, of Lowell, for attorney general; W. H. Mansfield, of Lynn, for state auditor; Harry Lloyd, of Boston, for secretary of state; J. O. Flynn, of Lawrence, for state treasurer.

MOLTEN METAL EXPLOSION.
Pittsburg, Sept. 22.—The explosion of molten metal at Shoenberger's steel works, four men were dangerously injured. Their names are: Nicola Dabini, will die; Frank Smith, Adam Rafferty, John Domaradzki. The explosion was caused by the overturning of a ladle of hot metal.

SAUL FOR THE CAPE.
Bombay, Sept. 22.—The remainder of the Nineteenth hussars and the cavalry staff have sailed for the cape. The cost of transporting the Indian contingent to South Africa is estimated at \$400,000.

BOYCOTT HEARING.
St. Louis, Sept. 22.—Judge Amos M. Thayer, of the United States circuit court, has given a hearing in chambers in the hearing on the proposed boycott brought by the Kansas City, Pittsburg & Gulf railway against numerous other railroads entering Kansas City to prevent an alleged boycott upon the former. A further hearing will be had next Wednesday, when Judge Thayer will probably render his decision.

The news up to the latest moment, local and telegraphic, can always be found in the evening editions of the people's paper—The Evening Herald.

WILL NOT SELL ARMS

Filipinos Not Tempted by the Government's Offer to Buy Guns.

LOWER CLASS FIRM

Failure to Accept Shows Lower Ranks in Sympathy With Insurrection.

New York, Sept. 22.—A special to the Herald from Washington says: Word reaches the war department showing that Gen. Otis has sought to induce the policy employed in Cuba of buying Filipino arms, and that his efforts have been unsuccessful. The natives were given to understand that upon the surrender of a gun, the military authorities would pay the person surrendering it \$40, and guarantee him immunity from arrest for previous armed opposition to the United States, and protection for the future. Notwithstanding this tempting offer not one bona fide surrender of a gun is reported.

One native, it is said, appeared with a gun in hand and the military officers began negotiating with him. The end was in sight and that when the rest of Aguinaldo's troops learned of the government's advance this way they would follow his example. A requisition was made on the treasury for \$30, but before the money was received investigation uncovered the fact that the soldier was an agent for an American soldier who captured the gun in action and wanted to dispose of the American figures to the military authorities.

In view of the disinclination of the natives to sell their guns, it is evident that the revolution is not so much confined to the upper ranks as supposed. Were these soldiers not so sympathetic with their officers, it is said by army officers that they would certainly have surrendered in at least small numbers, and they have ample opportunity to do so.

A TRAIN AMBUSHED.
Insurgents Ditch It and Kill Two Americans.
Manilla, Sept. 22, 2:30 p. m.—A party of insurgents ditched a railroad train a mile and a half south of Angeles this morning and then opened fire upon the derailed cars from a bamboo thicket, killing two Americans and wounding five others. Lieut. Loom and five of his recruits, who were on the train, made a vigorous defense and caused the enemy to flee. Six dead bodies were found on the train, and a third from which the rebel fire came. Wheaton with two companions proceeded to Gallegos to the relief of the train, but his services were unneeded.

MUST POCKET LOSS.
Holders of Cuban Bonds Cannot Look to America.
Manilla, Sept. 22, 2:30 p. m.—A special to the Herald says: Holders of Cuban bonds may as well make up their minds to lose their investments. They are not to be repaid by the United States to pay the debt of the Cuban government. A requisition was made on the treasury for \$30, but before the money was received investigation uncovered the fact that the soldier was an agent for an American soldier who captured the gun in action and wanted to dispose of the American figures to the military authorities.

SCHLEY TO VISIT SPAIN.

Will Have the Brooklyn as His Flagship.

HE WANTS NO PRINCE

Boston Meat Packer Objects to a Royal Serbian For a Son-in-Law.

AN EARNST WOOER

Prince Alexis Declares He Would Marry Miss Swift Without a Dollar.

Washington, Sept. 22.—It is a far cry from Helgoland to Boston, but diplomats are now speculating as to the outcome of negotiations, actively in progress, which will have a vital influence on the fortunes of the present reigning house of Serbia, and possibly tend to dethrone one family and install another in the palace of its kings.

Prince Alexis Karagorjevich is a sailor for the hand of Miss Swift, only child of E. C. Swift, of the house of Swift & Co., the big meat packers. Their abattoirs are in Chicago and Kansas City, but E. C. Swift's paternal home is in Boston.

When Miss Swift and her mother were abroad last winter Miss Reed, the sister of the late Mrs. Farnham Stevens, introduced the prince and the heiress. The Serbian, whose rank is that of brigadier or chief in his own country, is an exile and makes his home at the French capital, where he is one of the well-known boulevardiers.

He immediately laid violent siege to the heart of the American girl. So fast and furious was his wooing that he got her consent to an engagement before she had time to consult her father. At the present time the negotiations of the match by her parents. At this stage of the developments the Serb is a decided engagement is expected to take place very soon.

It is reported that the reason that Prince Alexis has been so successful in his wooing is that he has been distinguished for his skill at golf and other athletic sports. He has been a champion of the game for some time, and has won many prizes. He is a very handsome man, and is very popular with the girls.

TO TAKE DELAGOA BAY.
Rumored Arrangement For Great Britain to Take Possession.
Alibababad, India, Sept. 22.—The Pioneer today prints a dispatch saying negotiations have been concluded by Great Britain for taking possession of Delagoa Bay, Nov. 21.

BATTLE IMMINENT.
Venezuelan Government Massing Troops For a Decisive Fight.
New York, Sept. 22.—A dispatch to the Herald from the Port of Spain, Trinidad, says: The Venezuelan government is concentrating its forces at Guayana to meet the revolutionists there. A decisive engagement is expected to take place very soon.

THE FEE WAS A FORTUNE.
Even more romantic than the career of Senator W. A. Clark, the son of a Montana, is the rise of United States Senator George F. Edmunds. He was a poor boy, but he became a millionaire. He was a poor boy, but he became a millionaire.

POOLING THE COMPANIES.
It is stated that the life insurance companies have found a gang of medical swindlers who are getting on very well with their business. They are getting on very well with their business.

BEST CUTS FOR STEWS.
The radical objections of Mr. Swift to the choice of his daughter's heart is being met by argument on the part of the aspiring prince. The prince, who is a very handsome man, and is very popular with the girls.

THE CERMACH.
There was no more striking evidence of the weakness of the case against Dreyfus than the fact that his foes should have found it necessary to invoke against him the testimony of such a contemptible adventurer as ex-Lieut. von Cermach, says a Washington Post correspondent.

TO ALASKA FOR OIL.
"No, I am not interested in the Standard Oil company," said L. H. Woolfolk, of Cleveland, to a Washington Post reporter, "but I am on the lookout for good oil properties. I propose to take the most unique trip in search of petroleum that was ever planned. I shall start with a party next week with the oil company."

HE WANTS NO PRINCE

AN EARNST WOOER

Prince Alexis Declares He Would Marry Miss Swift Without a Dollar.

Washington, Sept. 22.—It is a far cry from Helgoland to Boston, but diplomats are now speculating as to the outcome of negotiations, actively in progress, which will have a vital influence on the fortunes of the present reigning house of Serbia, and possibly tend to dethrone one family and install another in the palace of its kings.

Prince Alexis Karagorjevich is a sailor for the hand of Miss Swift, only child of E. C. Swift, of the house of Swift & Co., the big meat packers. Their abattoirs are in Chicago and Kansas City, but E. C. Swift's paternal home is in Boston.

When Miss Swift and her mother were abroad last winter Miss Reed, the sister of the late Mrs. Farnham Stevens, introduced the prince and the heiress. The Serbian, whose rank is that of brigadier or chief in his own country, is an exile and makes his home at the French capital, where he is one of the well-known boulevardiers.

He immediately laid violent siege to the heart of the American girl. So fast and furious was his wooing that he got her consent to an engagement before she had time to consult her father. At the present time the negotiations of the match by her parents. At this stage of the developments the Serb is a decided engagement is expected to take place very soon.

TO BE ENTERTAINED. Steps Taken to Give Buffalo Men a Welcome.

Preparations for entertaining the members of the Buffalo Merchants' exchange were begun yesterday, and it is likely that a most hearty reception will be given them by the business men of Duluth. The party will arrive here at midnight Monday night, on the steamer North West, which it has chartered for the purpose. The party will be here just twenty-four hours. W. H. Peterson, secretary of the Duluth's union, who is working on the reception arrangements, received a telegram from W. C. Farrington in response to an inquiry yesterday

afternoon in which it was stated that 200 people had been booked. It is expected that the number will run up to 250. A meeting of Duluth business men will be held this afternoon to arrange for the reception program. The meeting will be held in the Chamber of Commerce building, and the committee is composed of E. A. Fairbank, Alex. McDougall, Luther Wendell, C. H. Graves, John M. Thomas and W. H. Cookin.

For forty years Dr. Fowler's Extract of Wild Eucalyptus has been curing summer complaints, dysentery, diarrhoea, bloody flux, pain in the stomach, and it has never yet failed to do everything claimed for it.

FORESTY EXCURSION

Invitations Received Here For
the Expedition to the Mis-
sissippi Headwaters.

ITINERARY OF TRIP

Will Be In Duluth on Oct-
ober 5--Will Hunt
and Fish.

The invitations for the expedition which will go to the headwaters of the Mississippi river and which has been arranged by the Minnesota National Park and Forestry association have been received here and they are very elaborate affairs. The committee on invitation consists of the following: Thomas Lowry and Thomas H. Shevlin, Minneapolis; Guilford C. Hartley, Duluth; Channing Seabury, St. Paul; Christian C. Kohlman, W. C. Brown, Henry S. Pich, Oliver W. Nixon, Paul Morton, Theodore H. Shantz, George E. Cull, John C. McNulta, Benjamin Thomas and J. B. Cline, all of Chicago.

The expedition is arranged to cover not more than nine days. The explanatory and literary circular, which is sent to each person who receives an invitation, contains the following:

It will leave Chicago on a special train over the Chicago, Burlington & Quincy railroad, on Thursday evening, Sept. 28, arriving at St. Paul the next morning, where it will be entertained by the citizens. The party will leave St. Paul during the night of Friday, the 29th, over the Great Northern railway, arriving at Walker, on Leech lake, on Saturday morning, the 30th. Here each member of the expedition as desired will divide into smaller parties for exploring the country and for hunting and fishing; these parties will be made up in such manner as the guests of the association shall themselves select.

Boat, guides and camping facilities will be provided, and each exploring party will be attended by a competent member of the association of such approved experience so shall ensure the comfort, enjoyment and safety of the guests in this camp.

Two dining cars, furnished for the party when it leaves St. Paul, will remain with it throughout the expedition. The party will be at all times within reach of the telegraph, and any mail may return at any time by regular trains running from St. Paul.

A limited number may have the opportunity of visiting Lake Itasca and the Minnesota river, and on the Upper Mississippi the party will make excursions to the great rapids, which are already playing those waters, although most of the region has only been made accessible by rail within about one year.

On Thursday, Oct. 5, the whole party will go by special train to Duluth and thence to Minneapolis. In both places the members of the expedition will be entertained by the citizens. The party will leave Minneapolis on the evening of Friday, Oct. 6, by special train, arriving in Chicago on the forenoon of Saturday, the 7th.

By the term guest is meant all that the word implies, whether in going, remaining or returning.

It is important that a response to this invitation be received at an early date; it should be addressed to the association at No. 125 Michigan avenue, Chicago, Ill.

AMUSEMENTS.

"MISTAKES WILL HAPPEN." Jacob Litt's great success, "Mistakes Will Happen," will be seen at the Lyceum next Monday evening. The comedy is one of the funniest on the stage at the present time and it secured a great hit on the occasion of its previous performance here. The leading male part is played by Charles Dickson, an actor and comedian as there is on the stage at the present time, and the balance of the company is made up of as good funny-making talent as it has been possible to obtain.

MINNEAPOLIS BEATEN.

Superior defeated Wilmet's Aggregation Yesterday Afternoon. The Minneapolis Western league team, which is to play here tomorrow, tried a new ployer against Superior yesterday and lost the game in the ninth inning. It was a pretty game, however, and up to the first half of the ninth the score stood 2 to 2. Superior was strengthened by Kline, Sheppard and Lambert of the local team, and these three men assisted very materially in giving Minneapolis the loss out of the score. Lambert scored two hits, one being a three-bagger; Kline had four, and Sheppard had a single. Kline had nine chances without an error, and Lambert scored in four drives without a single miss. Viggs pitched another brilliant game, striking out three Miners, while Barendse, the new pitcher of Minneapolis, struck out seven men.

Today, Patterson will pitch for Superior, and either Menefee or Hart for Minneapolis.

The score by innings in yesterday's game was:

Superior.....000100112-5-3-3

Minneapolis.....01000206-3-2-2

Batteries—Viggs and Koefer; Barendse and Fisher.

CONDENSED DISPATCHES.

The British battleship London, launched successfully at Portsmouth, Eng., yesterday in the presence of large crowds of people. Her displacement, 15,000 tons, the main feature of her construction, of the armor belt, which is carried the entire length of the ship as indicated by Capt. Tolly D. Evans, U. S. N., in articles against soft ended battleships such as the Iowa.

The postoffice department yesterday issued an order detaching from the mails the matter issued by the Ex-Slave Mutual Relief Bounty and Pension association, with headquarters at Nashville, Tenn. The ostensible object of the association is to secure pensions for ex-slaves.

Companies I, K, L and M, of the Eighth Infantry, under command of Capt. E. N. Jones, comprising the depot battalion of that regiment, arrived in St. Paul from New York last night, having come direct from Cuba for a rest spell in garrison at Fort Snelling. They will probably remain there for the winter.

At a joint scale conference of the committees of the American Flint Glass Workers' association and Glass Emb Workers at Pittsburgh yesterday the workers were granted a 5 per cent advance in wages. The settlement was a compromise, the workers demanding an increase of 10 per cent.

The Dees basket factory, at Dubuque, Iowa, one of the largest in the West, has been absorbed by the trust. The entire plant will be moved to Chicago.

At yesterday's session of the German nationalist conference at La Crosse, Wis., the following officers were elected: Secretary, Frank E. Hirsch, Charles City.

FATIGUE
and lassitude so common in mid-summer are promptly relieved by
Horsford's Acid Phosphate
Genuine bears name: Horsford's on wrapper.

lowa; statistical secretary, J. J. Kirmley, Plattville, Wis.; treasurer, Rev. Frederick Schaub, Charles City, Iowa. Chicago was selected as the place for the next conference.

Cornelius Trippe, colored, was shot and killed at Singletown, Wagon county, Miss., Wednesday night, making four victims, two white and two colored, of the feud raging in that county. The friends of J. R. Johnson, the man killed with Ed Trippe Monday, are laying in a supply of arms and ammunition. More trouble is probable.

At Gen. Roe's office in New York yesterday it was said that the refusal of the Grand Army of the Republic organization to take part in the Dorey land parade was final. Gen. Roe is not disposed to recede an inch from his position. The ex-Confederate Veterans will not march either, being unable to prepare in time.

The date for the opening of the international commercial congress at Philadelphia has been definitely fixed as Oct. 12, instead of Oct. 10, as heretofore announced.

The miners at the colliery of Weston, Delson & Co., at Marry, Pa., went on strike yesterday for an advance of 21 per cent for mining. The colliery employs some 100 men and boys and has an output of 100 tons daily.

Miss Kate Herbstheimer was indicted by the grand jury at Princeton, Ill., yesterday for the murder of Charles Salzman, a young man with whom she had been keeping company. Miss Herbstheimer claimed that Salzman had asked her to marry him but that she declined to do so.

Miss Lois Ward was fatally burned and her mother and brother were injured at Findley, Ohio, while working over a stove with resin. It is supposed the substance caught fire and Miss Ward's clothing ignited from the blaze. The mother and child are not seriously injured.

ILLLOA DIES.
New York, Sept. 22.—A dispatch from Panama to the Herald says: Word comes from Buena Ventura that Gen. Ramon Ulloa, commander of the Colombian gunboat Boyaca, died in that port Monday. No further details have yet been received.

KINDLING WOOD BURNS.
New York, Sept. 22.—Fire this morning destroyed the coal and kindling wood plant of Schenken & Willenbrock, occupying the block from Ninety-third to Ninety-fourth streets on First avenue. The plant of the East River Lumber company across the street on First avenue was also badly damaged. The total loss will exceed \$250,000.

STAFF CHIEF DEAD.
Paris, Sept. 22.—Gen. Brault, who succeeded Gen. Renouard as chief of the general staff, Nov. 4, 1898, is dead.

NEW YORK AND WASHINGTON TICKETS.
Telegrams to H. R. Dering, A. G. P. agent, Pennsylvania Short Lines, 248 South Clark street, Chicago, asking for tickets and sleeping car reservations to New York and Washington, account Admiral Dewey receptions, will result in tickets being ready when seniors reach Chicago. Dates of excursions to New York are Sept. 26, 27 and 28; to Washington, Sept. 30 and Oct. 1.

ISSUE IS UPHELD

Judge Moer Decides That
Issue of Refunding Bonds
Is Legal.

NOT VERY THOROUGH

Court Did Not Go Deeply
Into It as It Is to Be
Appealed.

Judge Moer, in district court this morning, sustained the proposed issue of \$200,000 in bonds by the city of Duluth. The case will go to the supreme court, and as it will be early on the calendar, it is expected that a decision will be reached by the supreme court early in the October term.

The matter came up this morning on the injunction suit of E. P. Alexander against the city, in which the court was asked to restrain the issue of the bonds on the ground that the law of the state prohibits the issuance of bonds above the limit of 5 per cent of the assessed value, and that the enabling act passed by the last legislature is void because it is class or special legislation. Mr. Harris appeared for the petitioner, and City Attorney Richards appeared for the city. S. T. Harrison, who is E. P. Alexander's attorney, was also present, though he took no part in the discussion. The court said that the case is so close that it would take several days to go into the matter thoroughly, the arguments this morning were not exhaustive, and in upholding the bonds Judge Moer said that he had not taken the time to go into the matter thoroughly, but that he believed that the law was under that head. He thought that the legislature has a right to make a law, general in terms, applicable to cities of a certain class only, as the constitution has been, and he believed that it had been the policy of the courts to uphold such legislation. He did not believe that this made it a special law.

The Special Term.

The special term of district court this morning had rather more than the ordinary number of cases upon it, and most of them required action on the part of the court. The following dispositions were made: In the case of C. F. Forsell against T. B. Clement, a motion for a new trial was submitted; Gustavus

Stevens against William Stevens, case certified; American Exchange bank against P. A. Seymour et al. judgment against Motor Line Improvement company, judgment awarding the plaintiff title to the Woodland street car line, and W. H. Stokes against Albert Harding, doct. declared to be a mortgage; and ordered foreclosed; Blanche B. Trichum against I. P. Smith et al. judgment for plaintiff, same against C. P. Noel et al. same order; A. Warfield against Alexander Miles, judgment corrected; J. Wentworth against the estate of J. P. Fleitz, judgment as prayed.

WEST DULUTH

The best furnace people expect to have everything in readiness to start in about three weeks. The work of overhauling and repair is practically finished, minor details only remaining to be attended to and the requisite material for the work remaining to be done is all on the ground. The furnace will employ about 150 men when in full blast.

HOUSES ARE FILLING UP. There is a growing demand for houses in West Duluth and fully 20 per cent more are occupied than there were June 1. A large number of persons who left Duluth in the past two or three years have returned to east in their here again, believing that the chances for the future are as good here as elsewhere, if not better.

TOMORROW'S SERVICES. At Westminster Presbyterian church, Rev. W. L. Whipple will preach tomorrow morning at 10:30, and in the evening will be held. The subject for the reading is "The Holy Spirit." The rally tomorrow evening to the evening of the day meeting has been postponed from Sunday following. Mr. Whipple will work in Persia, and this will probably be the last opportunity of his West Duluth friends to hear him before his departure.

Rev. John H. Morley, of Minneapolis, state superintendent of home missions, will preach at Plymouth Congregational church tomorrow morning at 10:45 and in the evening at 7:30 o'clock.

The seventeenth Sunday after Trinity, Swedish service will be held by Rev. K. S. Tottermann at 10:30 a. m., at the Holy Apostles Episcopal church, Fifty-seventh avenue west and Eleanor street, and Rev. K. S. Tottermann will hold Swedish service at 8 p. m. at St. Luke's Episcopal church, Nineteenth avenue west and First street.

WEST DULUTH BRIEFS. The 8-month-old child of Mr. and Mrs. W. D. Smith, of 424 Fifty-eighth avenue west, died yesterday of ulceration of the bowels. The funeral was held this afternoon at 2 o'clock from the house. Interment at Onondaga cemetery.

Buy your coat of A. Bagley.

J. L. Brannan opens his shoe store Saturday. He will be glad to see old friends and make new ones.

Mrs. B. C. Dent, a former resident of West Duluth, was visiting friends yesterday.

N. C. Hendricks, who was threatened with an attack of typhoid fever,

was able to be at his store a short time yesterday.

Miss Hattie Mann is visiting in Hancock and Houghton.

Leaving Booth's dock at 10 a. m. and 2 p. m., returning leave Two Harbors 5 p. m.
FARE, 50c ROUND TRIP.

BIG INCREASE.

August Transfers and Building Permits Show Enormous Percentages.

For the month of August the percentage of increase in Duluth realty transactions was 572, which is not only the largest increased percentage in years, but is also the largest increase shown in fifty of the leading cities of the United States for the month. The transfers in August, 1898, amounted to \$107,121, and last month the transfers aggregated \$685,891.

In the increased percentage in building operations Duluth established a new high record mark by registering an increase of 1213 per cent. The amount of money expended in building in August, 1898, was \$12,323, while that of last month was \$281,737.

Ladies! Before placing your order for your winter millinery you are respectfully invited to compare my goods and prices with other milliners. Madame Bonnet, 22 Third avenue west, Ritchie Gamali building.

*A poor-fitting fur coat is as bad as one made of unimproved skin. Buy the North Star coat and avoid both.

SPOTS ON THE SUN.

Northfield Observatory, Eastbourne, England—Mr. G. F. Chumley recently observed a spot on the sun, the diameter of which was about 2,000 miles. Spots on the faces of men and women, although only one-third of an inch in diameter, cause more anxiety than the most profound solar disturbances. Spots on the skin usually follow in the train of ill-health, indigestion or constipation. Beecham's Pills, a pleasant laxative, remove the cause. Then the spots disappear.

There is no help to health on earth to equal Beecham's Pills; they are the grandest liver regulators the world has ever produced and may be taken freely, for nothing but good can follow their use.

THE GRIDIRON.

Football Season Will Open
Next Saturday--Will Be
Many Games.

The local gridiron season will open next Saturday with great prospects for a successful season. Duluth will be well represented in the eleven of the Zenith Amateurs and the Central High school. Both elevens have had big squads out for practice during the past week, and next Saturday the Zeniths open the season with Superior at the latter's grounds and the high school men will line up against either Ashland or Craggenroft.

Several weeks ago, has been generally considered a West Duluth organization, but the managers of this eleven decided that it is strictly "anti-Duluth," and when this eleven lines up against Superior next Saturday, Duluth will be represented by one of the heaviest teams in local gridiron history. The practice of the management of this new organization has stopped at nothing in arranging games except professional team. Its aim is to encourage honest amateur sport. On Saturday, Oct. 7, a return game will be played with Superior out at Onondaga park, and on Oct. 21 the Houghton football eleven, selected from the Michigan School of Mines, will be here to play the Zeniths. Negotiations are now on for a game with the University of Minnesota, and as this institution has only nine games scheduled between now and Nov. 25, it seems probable that the Gopher pig skin players will agree to play here. Besides these games, dates and terms are arranged with Ashland, Minneapolis, Ironwood, Hamlin university, Carlton college and the university of North Dakota.

The managers of the Zeniths say that they will be glad to accommodate all college and amateur teams with games, but it will be useless for either professional or semi-professional organizations to apply for dates.

Out of a large squad of experienced candidates the first team will be chosen next Saturday. The following are candidates for positions: J. D. Park and William Springstead, center; Conley, Lambert, A. T. Park and Carey, guards; O'Brien, Burnett, B. N. Wheeler, Ray Higgins, tackles; Charles Olson, Elmer White, Burnett, Sheppard, Hunt, ends; Henry Melning and George Allen, full backs, and J. D. Park, George Allen and Elmer White, half backs. Edgar Leach will captain the eleven and play quarterback.

George Allen, who is a candidate for positions back of the line, was formerly captain of the Carlton college eleven and also played full back on the university of Chicago. Bert Wheeler, the county counterpart of school, is an old Hamlin player. J. D. Park is an old university of Pennsylvania man. Elmer White played on the varsity team of Michigan, and Lambert was for several years on the Georgetown university eleven. Melning, who is opposing Allen for the position of full back, has played on Duluth elevens for many years, as have also O'Brien, Lynch and Olson. Conley, Carey and Sheppard are not exactly old-timers, but they are good men and are picking up the game rapidly.

The two squads of high school candidates met this morning and played two 20-minute halves out at Onondaga park, the score being a tie, 6 to 6.

CITY BRIEFS.

Cullum, dentist, Fallado, Phone No. 9. Thieves, undertaker, 2 East Sup. St. The Kelly Hat Hospital, 45 W. Sup. St. A meeting of the Twenty-first Century club on Monday evening at 8 o'clock for the purpose of electing a president to succeed Mrs. John D. Merrill. Mrs. Morrison was re-elected president at the annual meeting of the Twenty-first Century club, but at her request she was only to hold over till the present month.

A driver of a lumber wagon was arrested this morning for drunkenness. He was driving along West Superior street in front of Casser's grocery and incidentally neglected to turn out for a heavily loaded wagon standing there. A collision resulted with but very little damage to either rig. An officer took the driver off the lumber wagon and at police headquarters he was too drunk to tell his name.

The fire department was called out this morning to light a fire in the coal bunkers of the tug Crosby, lying at the foot of Sixth avenue west. The fire was under control, however, before the department arrived, but the department required. Kate Van derstien is the plaintiff in a suit against Louis and Antoine Bernat, to clear title to the way of the set of sections 24-25, S. R. & William Harrison are the attorneys.

Marriage licenses have been issued to the following persons: Symon Droszinski and Anna Chacka, of St. Louis county; Ole Norman and Lizzie Maki, of Douglas county; Patrick Conner, of Douglas county, and Louise Holter, of Pine county.

Second papers have been issued to Charles Berry, William Jacobson, Charles Haski, David McFarlane and Peter Holm. The Epworth league of the First Methodist church will have a box social evening at 8:30. A musical program will be given and the entertainment promises to be quite a novelty and success. Mrs. T. Adams gave a pretty pink luncheon at her home Friday in honor of Mrs. E. H. Morrison of Culbertson. Covers were laid for eight. The table was handsomely decorated with pink carnations and smilax.

A dance social will be given by the Ladies' Loyal Orange lodge, No. 35, Monday evening.

Mrs. Albert Salter, of 541 East Superior street, gave a farewell party at Lecker Park Tuesday, in honor of her sister, Mrs. E. C. Smith, of Saginaw. Dinner was served to forty, and the evening was spent in dancing, an enjoyable time was had by all.

The T. T. will give a harvest home at the parlors of the First M. E. church, Monday afternoon, at 2 o'clock. A program of special interest has been prepared. The members of the Brotherhood of Locomotive Engineers of this city, with their families and friends, will leave this evening at 7:30, on a special train to attend the first anniversary ball of Division No. 12, Ladies' Auxiliary of B. of L. E., at Acen hall, West Superior, and will return by special train after the entertainment.

PERSONALS.

It doubles the joy of the human heart, brightens body and brain. That's what Rocky Mountain Tea will do. 35 cents.

Ladies! Wait and see the elegant display of millinery next Tuesday and Wednesday at Mrs. Humes, over Saffor's.

Mrs. H. E. Farwell, of St. Paul, has joined Mr. Farwell here and is at the St. Louis.

Miss Grace Sheridan has gone to St. Paul for a month's visit with friends there.

Mrs. G. C. Steele arrived from Boston, Mass., this morning. Mr. Steele's health is improving.

Mrs. Bert Hines is visiting Mrs. T. B. Thomas, of 115 West Superior.

J. A. Scott was called to Stillwater this afternoon for the funeral of his brother, Fred Scott, of that place.

Arthur Ely, of Chicago, is at the St. Louis.

C. H. Laing, of Huckleley, is at the St. Louis today.

Hon. W. S. Dwinell, of Minneapolis,

author of the anti-trust law which was passed by the legislature last winter, arrived in the city last evening and left for the range today. James H. Pearce, of Virginia, is at the St. Louis. Charles J. Johnson, of Grand Marais, came down on the Dixon yesterday. E. W. Griffin came down from the Diamond mine yesterday. W. J. Powers, of Hibbing, is at the Spaulding. Miss Lorr, of Saginaw, Mich., is at the Spaulding. Frank Grand and Hon. P. M. Macleod, of Crookston, are at the Spaulding. W. T. Knowlton, of Saginaw, Mich., is at the Spaulding. C. J. A. Morris, of St. Paul, came up from that city last evening. Miss Lingard has returned from the East with the latest fall styles. Mrs. E. C. Smith, who has been the guest of her sister, Mrs. A. J. Salter, for the past six weeks, left Wednesday for her home in Saginaw, Mich.

CONGREGATIONAL COUNCIL. Boston, Sept. 22.—Today's session of the international Congregational council opened in Tremont temple with the

usual devotional exercises. The session was a short one, as it had been arranged to adjourn at noon and form an excursion. This forenoon Albert Spicer, M. D., of London, delivered an address on the "Church in Social Reforms."

WALKER SAILS. Southampton, Sept. 22.—Among the passengers on board the American line steamer New York, leaving this port today for New York, will be Rear Admiral J. G. Walker, United States navy, (retired).

WANTS TO DEBATE. Toledo, Sept. 22.—Mayor Jones, the independent candidate for governor, today challenged Hon. George K. Nash and John R. McLean, the Republican and Democratic candidates, respectively, for a joint debate.

ROBBER ARRESTED. London, Sept. 22.—The ringleader of the band of highwaymen who stole the sum of £12,000, Sept. 12, while in transit to a large bank in this city, has been arrested.

Stewart Stoves and Ranges.

After 60 years of experience in making heaters, STEWART'S is sure to be the leader. A good stove is sure to be an imitation. Look into the merits of the STEWART. Every stove a double heater. Their special point of merit is a saving in coal.

STEWART STEEL RANGES. None of them in use in Duluth. They are everywhere and in every home. Buy now or you will pay more money later.

Carpets and Rugs

Choice new styles in all grades of Carpets now ready for display. Never before have we shown such elegant styles. Never before were we so lucky as to own them before all the summer advances, so we can sell as low as last year while the stock lasts.

A Watch Value Unequaled...

The Movement—A Howard, new model, pendant set, open face or hunting, 17 jeweled, nickel, adjusted to temperature, isochronism and position.

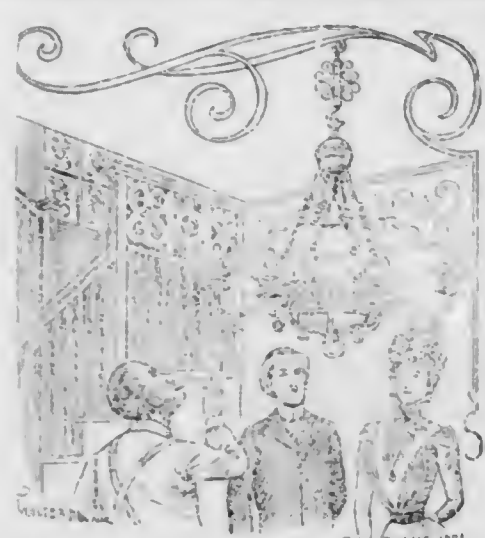

The Case—14 carat solid gold, faultlessly finished and engraved. The Howard is the best movement in the United States. The wholesale price of the movement is \$100.00. The cases are worth at wholesale \$34.00 to \$42.00. I bought of the trustee of E. Howard & Co., a limited number of Howard movements in cases described and will sell them thus completed for—

\$85.00

This is the most remarkable watch value ever offered. Anyone wanting a watch for a lifetime, one that will descend from father to son for generations to come, a watch to be proud of, and that you can rely upon as you would upon the sun, should secure one of these. The guaranty is the highest, the warrant perfect.

G. A. KLEIN, The Jeweler.

DOUCET'S NEW CREATIONS

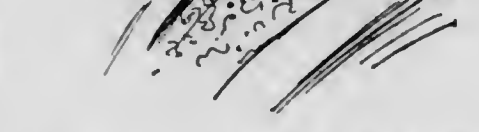

Fall and Winter Gowns Show No Decided Novelties--Velvet Combined With Flowers the Newest Headgear.

IN THE MILLINERY REALM

Paris, Sept. 10.—(Special to The Herald.)—While the great Parisian couturiers are sending out their newest devices for fall and winter attire, Paris itself is still clothed in the glories of a lingering summer, while its gay and pleasure-loving inhabitants, heedless of nature's nearing dissolution, bask in the radiant sunshine and frequent the Bois and the Champs in such airy and charming attire as marks the warm summer weather. Everywhere dainty summer garb is still apparent, though intermingled here and there is a fashionable traveling gown fresh from the ateliers of a great master of fashion, and generally adorned the stylish figure of an American or the quiet dignity of a neighbor from across the channel.

A morning at Doucet's reveals won-

made of creamy voile, which is covered with a hand-painted design of large mauve poppies with stems and leaves tinted with dainty sage greens. The model envelops the figure with faultless fit and closes at the back by means of white silk lacing. It is fashioned over a lining of cream colored satin. The skirt is finished with three ruffles of plain white voile, each of which is bound with a bias fold of sky blue surah. The same bias folds also encircle the bodice at the breast and neck, simulating a short bolero. The high stock is of folded sky blue tulle, and the light sleeves of tulle are finished at the elbow after a manner generally adopted during the past summer and evident on most of the richest models for indoor wear for the fall and winter. A bias band and butterfly bow of the same sky blue tulle form a graceful finish at the elbow. The large fall hat by Marscot is of rice straw faced with sky blue velvet and covered with silk poppies of the

A novel toque of mode foulard bound with fine milliners' folds of the same silk. One side is caught by a rosette and bows down in the same manner and finished with brown quills.

tated. One model of this kind has the broad round crown and poke brim covered with overall bias folds of pearl gray silk taffeta, and the brim is faced with rose colored velvet. Gray silk rosettes and short curly plumes, black and rose colored, form the trimming and are attached with rich simili buckles. Gray silk tulle forms the scarf and ties in a cravat bow under the chin. A small toque by Lenthéric has also some commendable novelties. Very narrow bias ruffles of pale gray taffeta are

with old gold silk and dull blue and red shades, outlined with gold and silver thread and spangles. The back of the bodice is seamless, as the cloth is stretched from one under-arm seam to another, but the front forms a small jacket, the scalloped edge of which is finished with a stitched strap like that on the skirt. The cloth sleeves are light and plain and a belt of folded silk of the same shade as the cloth forms an appropriate finish.

The "Capeline" hat has a crown of old rose felt and a wide scalloped brim of black velvet. Black plumes and black satin ribbon are used as a trimming.

PELIX FOURNIER.

THE FALL OPENINGS.

Serge and Corduroy Costumes Among the New Styles.

Every day is now a red-letter day at the shops where the fall openings are being conducted with fitting splendor, ceremonies and unusual crowds of appreciative women, says the New York Sun. This promises indeed to prove a

notable season in fashions, for though there is nothing startling new in the whole realm of dress put forward and scarcely a novel ornament or a hat shape, yet the women are buying as the never bought before. It needs a strong arm, prompt to act and somewhat ruthless, to gain a place at a counter. Once there it requires the diplomacy of a Kruger, first to secure a saucy woman and then to keep her from being carried away or reduced to hysterics by the importunities of her sister shoppers. However, in the race for clothes, the desperate business of sample matching, all maneuvers are regarded as being as fair as under the exigencies of love and war, and might is right and to the victor belong the spoils when the task of clothes getting is undertaken.

Where the tide of human interest and financial output runs high just now is in the silk petticoat department, and the consensus of expert opinion is that never before have petticoats, these creatures of the wardrobe, presented themselves more irresistibly. They are out in the body part to take the exact shape of the prevailing top skirt, and from the knees down flower out luxuriantly and daintily in a maze of points and darts and frills that, because of their intricacy, in overlapping and interweaving successfully imitate anything like clear description. Suffice it to say that from waist to knee the silk sheath must be ornamented and without decoration, and that portion of the garment is of taffeta. Below the knee the most reasonable makers hang a deep flounce of crepe de chine, and upon this let fall tulle or embroidered points of taffeta edged with puffings of chiffon. There you have a pretty Columbine skirt of the most recent Rue de la Paix pattern. A respectable number of the skirts designed for evening wear have the great knee flounce made of one deep fall full of chiffon, on which are sewed small overlapping chiffon ruffles, the edges of which are again ruffled, with narrow ruffles of the same light woven stuff. The prime motive behind all this is an effort to secure perfect limp, soft drapery at the ankles.

What we find in the realms of the made of dove, goose and mauve grey silk, their borders, garnished with ruffles of the same material, on the edges of which hebe ribbon, blue, pink or green, or all these colors together, is most modern bodice needs, and very many of them are made of antique velvet or of string-colored Bruges or Cluny lace. More than ever are waists hooked up in the back worn by the owners of young and slender figures, and a pretty girlish design in bottle-green velveteen has all the upper part of sleeves and waist puckered in close set cord-like perpendicular tucks over the shoulders falls a collar yoke of heavy string grey Russian lace through the heading of which, at the neck and about the shoulders, threading of black velvet baby ribbon runs, and cuffs of lace catch in the bishop sleeves at the wrist.

As to the silk and flannel houses there is little real novelty in their shapes and the enterprise of their wearers seems all centered in the four-in-hand necktie with floating handkerchief ends. There was never a moment's doubt as to the popularity of these strange violet, damson red, lichen grey and locus green neckties, with some bizarre figures embroidered on their sashlike ends. A rich red tie of heavy fall fraise will show a pair of crossed foil's bangles in rainbow colors on one end and a knight's helmet with plumes on the other. A ship under full sail, and a bouquet of parti-colored flowers decorate another pair of ends, and with further varieties of equally eccentric patterns the autumn girl is proud and happy, and is busy making a collection for wear throughout the winter.

Cashmere was the most modish light weight winter fabric last year; serge is what we will wear in its place in the winter. The Boers are decorated with striped serge and creped and ribbed serge, and the dressmakers make them slip into adorning costumes without overskirts, which, when they are not in a princess fashion, are divided into a skirt and bolero waist. A few par-

Large hat of grey felt faced with black velvet and trimmed with yellow and red crystals, annas and ribbon bows. Model by Lenthéric.

stitched. If any one wishes to know the excuse for this mode let it be understood that it is because tasteful women have declared against the wearing of sandy silk petticoats on the street and grey is pronounced a better choice even than black, while the changeable silks are no longer used.

Numbers of women are taking enthusiastically and gratefully to the underskirts of flexible flannel that are constructed of flannel only to the knees, below which point silk is used. This little convenience is designed to close with the wishes of the woman who desires warmth and silk luxury without the necessity of loading her limbs with two petticoats. Besides these skirts are the most dainty short flannel skirts in a variety of colors and most elaborately ornamented in the old-fashioned linear stitch with tinted silk.

From underskirts to topskirts is a natural course in dress topics, and it is wisdom to mention that there is a sort of deadlock just now on the question of what to wear with fancy waists and winter skirt waists. If the decision lay with them the dressmaker would doze and one equally determined and pitiless sister shoppers. However, in the race for clothes, the desperate business of sample matching, all maneuvers are regarded as being as fair as under the exigencies of love and war, and might is right and to the victor belong the spoils when the task of clothes getting is undertaken.

Where the tide of human interest and financial output runs high just now is in the silk petticoat department, and the consensus of expert opinion is that never before have petticoats, these creatures of the wardrobe, presented themselves more irresistibly. They are out in the body part to take the exact shape of the prevailing top skirt, and from the knees down flower out luxuriantly and daintily in a maze of points and darts and frills that, because of their intricacy, in overlapping and interweaving successfully imitate anything like clear description. Suffice it to say that from waist to knee the silk sheath must be ornamented and without decoration, and that portion of the garment is of taffeta. As to the silk and flannel houses there is little real novelty in their shapes and the enterprise of their wearers seems all centered in the four-in-hand necktie with floating handkerchief ends. There was never a moment's doubt as to the popularity of these strange violet, damson red, lichen grey and locus green neckties, with some bizarre figures embroidered on their sashlike ends. A rich red tie of heavy fall fraise will show a pair of crossed foil's bangles in rainbow colors on one end and a knight's helmet with plumes on the other. A ship under full sail, and a bouquet of parti-colored flowers decorate another pair of ends, and with further varieties of equally eccentric patterns the autumn girl is proud and happy, and is busy making a collection for wear throughout the winter.

Cashmere was the most modish light weight winter fabric last year; serge is what we will wear in its place in the winter. The Boers are decorated with striped serge and creped and ribbed serge, and the dressmakers make them slip into adorning costumes without overskirts, which, when they are not in a princess fashion, are divided into a skirt and bolero waist. A few par-

graphs back a reference was made to corduroy, and it is as well here to strengthen the assertion concerning it with the assurance that serge and corduroy are one of the modish combinations. For instance, with a serge skirt, a blouse and coat of corduroy are worn. Let it be borne in the minds of the incredulous that this new corduroy, when used for skirt waists, is thin and as easily handled as the lightest weight of velveteen, that it is made up with its cords running a la bayadere, and that in a rich corn flower blue with a collar of imitation old Maltese lace, it is as graceful and becoming as possible. Now the coat that goes with this is made of double-faced corduroy that might almost be welcomed as a new thing under the sun, and it is apt to be cut saque shape and worn with a short fur collar, and there you have one of the prettiest little costumes that the autumn has brought us.

To give the tailors their due it must be confessed that in serge they are making up some very delectable little suits, and one quaint notion they have is that of adding to a dark ink blue serge skirt, made severely plain, a grey or cream colored silk waistcoat, fastened with silver ball buttons, and showing liberally between the wide open fronts of a short tight lacing coat of clear sealine wax red serge. For early autumn use in the country these costumes are meant and later they can be worn in town; but naturally under a topcoat.

From serge of very fine wale and unusually soft texture a good many more ceremonious costumes than the above will be made, and it may be noted that the overskirt is as if it had never been. About the foot, silk and satin gowns are still slightly trimmed, but the overskirt has by feminine prejudice been annihilated. In its stead nothing has come. Now and then among the treasures of the show rooms a skirt draped in lace flounce crops up, but the sweep of material is no longer even broken at the knee, saving and excepting by the such effect extending to the waist line between the top of a skirt and the bottom of a waist. Usually, through a more or less ornamental buckle, the fringed ends are drawn and allowed to hang at the left side.

In the space of a few years, with their sources not above five miles apart, there are three of these small streams. So small are they that they are nameless, for creeks are so common there that if they were all named they would encumber the map. Yet these streams are very interesting. Suppose that on a certain warm afternoon in summer there has been a thunder shower. When the clouds have passed away and the sun shines out again on the dancing waters of these little streams, the drops of rain that fell have mingled with the current, and are hurrying away with the rest of the busy waters.

One of the streams has but a short distance to go before it reaches the St. Louis river, which presently tumbles over a series of falls and then glides sedately past Pond du Lac, the site of an old Indian trading post started by the founder of the Astor fortunes, into St. Louis bay, and then past the busy wharves of the harbor of Duluth, into Lake Superior. From here to the Atlantic, through a chain of four great lakes, through the canal at Sault Ste. Marie, over Niagara falls, through the St. Lawrence river, past historic Quebec and Montreal is a journey full of incident and picturesque scenery.

A little west of the source of this stream begins the second of this remarkable trio. It flows westward, through primeval forests of pine, spruce and cedar, and joins the waters of the Mississippi river near its source. It thus becomes one of the progenitors of the Father of Waters. With this stream, gradually widening as it proceeds southward, it is an interesting journey, if less eventful and less picturesque than the first one. Through many states and many latitudes and climates it flows until at last the warm bosom of the gulf of Mexico is reached.

Most eventful of all is the journey of the third stream, which flows northward. The first large body of water it meets is Italy lake, on the borderland between the domains of Uncle Sam and John Bull. Then through Italy river to the Lake of the Woods, through the Winnipeg to Hudson's bay and through Hudson's bay to regions of the Arctic wastes that man has never seen is a devious and perilous voyage.

Through all of these distances might the raindrops of a summer shower travel if the sun did not draw them up again into the clouds for a wider and more wonderful journey still.

There have been a good many inquiries about the changes in the game laws made by the last legislature regarding the hunting of deer and moose. The principal changes are in the dates of the open season and the fact that licenses are required. Last year the open season was from Oct. 25 to Nov. 15, and this year it is from Nov. 1 to Nov. 20. The season is therefore shortened a few days and put ten days later.

The moose season is from Nov. 5 to Nov. 10, the same as last year. Five deer and one moose or one caribou is the limit fixed by law on any one man's shooting, but the man that would not be satisfied with that record has no business to be anywhere out of a slaughter house.

There is a slight difference in the price of licenses required for deer hunting. If one is a resident of the state the license costs only 25 cents, but if the hunter is a non-resident it is going to cost him \$25 before he is permitted to go after big game in this state. Applications for local licenses must be accompanied by proof of residence in the county in which the license is issued, and the licenses must state the age, height, weight, complexion and color of hair and eyes, and the signature of the applicant must be attached. The licenses are good for one year, and failure to get one brings a fine of \$50 to \$100 or imprisonment from thirty to ninety days.

AN INDIAN'S PENANCE.
H. P. Myton, United States Indian agent at White Rocks, Utah, has among the Ute Indians on his reservation a man who for twenty years has done an awful deed to his mother, but who, in spite of that, he has gone through, and who he has not yet suffered sufficiently for his transgression, says the Salt Lake Tribune. The killing was entirely accidental, and the tribe held the Indian blameless. However, his was his accuser, and it held him up as a criminal. When his burst of grief was over he imposed a solemn vow that for the rest of his life he would not wear clothing or the red skin has kept his word. He dwells in an open air, with a piece of old blanket around his waist, and he keeps him on some sticks. He is entirely nude.

Mr. J. M. H. has been on the ground through the winter, even when the thermometer goes as low as 40 degrees below zero.

TO THREE QUARTERS

Curious Fact as to a Small Portion of Land in This County.

WATER SHED START

Water May Run in Three Directions--The Coming Hunting Season.

It is a curious fact that if a passing cloud sprinkles a few drops of rain over the soil of a certain portion of this county, those drops of rain may make their way through ordinary channels to three different quarters of the continent. Along the north shore of Lake Superior, extending back of Duluth, there is a ridge that is like no other in the world, perhaps. It runs for only a short distance, and it is not very wide, yet it is the beginning of water sheds that feed Hudson's bay, the Atlantic ocean, the great lakes and the gulf of Mexico.

The country north, west and northwest of Lake Superior is dotted with lakes and creeks crossed with rivers of greater or less magnitude. A glance at a map of the section north of Duluth shows many rivers, mostly small, running in various directions, apparently without aim. Closer look reveals some method, and it will be discovered that all north of a certain line run north, and those south run south. That dividing line is the watershed which reaches to the farthest ends of the globe.

In the space of a few acres, with their sources not above five miles apart, there are three of these small streams. So small are they that they are nameless, for creeks are so common there that if they were all named they would encumber the map. Yet these streams are very interesting. Suppose that on a certain warm afternoon in summer there has been a thunder shower. When the clouds have passed away and the sun shines out again on the dancing waters of these little streams, the drops of rain that fell have mingled with the current, and are hurrying away with the rest of the busy waters.

One of the streams has but a short distance to go before it reaches the St. Louis river, which presently tumbles over a series of falls and then glides sedately past Pond du Lac, the site of an old Indian trading post started by the founder of the Astor fortunes, into St. Louis bay, and then past the busy wharves of the harbor of Duluth, into Lake Superior. From here to the Atlantic, through a chain of four great lakes, through the canal at Sault Ste. Two Doucet Gowns.

ders in novel ideas and combinations of colors which prove most attractive to the feminine world, who, after a season's worship at the shrine of nature, in garbs which proclaim the highest "refinement" of art and artfulness, is slowly awakening to the desire for change. Fashion, however, has inaugurated no decided novelty--the long, slender lines are perhaps slightly intensified and the flare at the hem is somewhat diminished, but draperies and trimmings and furbelows are as manifold and extravagant as ever. A new departure is shown in the charming morning gowns which Doucet has just finished for an American bride, whose wealth and beauty have opened for her the sesame of the highest European aristocracy.

The Parisian gown in question is

same shade as those which decorate the gown. Millinery alone shows tendencies which are decidedly new. The combination of velvet and flowers which heretofore has been absolutely tabooed, now strikes us conspicuously as the newest headgear. The large hats proved so becoming during the summer that their form has been adopted for winter wear and wide trimmed "capelines" of black or colored or white velvet or plush are profusely trimmed with beautiful roses which lack nothing but the perfume to make them like their natural prototypes. A desire for the renaissance of the picturesque effects of long ago has taken hold of the fashion-able world and makes itself particularly felt in the millinery realm. The Marie Louise form is much admired and im-

bound with tiny bias strips of the same material and are mounted on the wire form in spirals, so as to make a fine mass which is caught on the left side by a strap of sky blue velvet attached by a brass buckle and holding a tuft of blue and black plumes. The same model is effectively copied in white taffeta and black velvet biases, with decorations of black velvet and black plumes.

Another design is a tailor-made suit made by Doucet. The skirt shows the newest idiosyncrasies of fashion, and is made of old rose satin cloth. The simple but very chic trimming consists of a strap of the same cloth, cut and stitched in undulating lines. The bodice is more elaborate. It has a vest, yoke, collar and shoulder pieces of black velvet richly embroidered in oriental design

Touque of white velvet embroidered with buff, putache and trimmed with black plumes.

BIG PANTHER PAISIES

Last Appearance of a Terror of the Arkansas

Bottoms, Who Is Enterprising and Especially Big.

HE SUPPED ON DYNAMITE.

"I guessed we killed at our camp the biggest panther that was ever killed in Arkansas," said the man from Arkansas, as he put his glass down on the table.

"I don't know about that," said another of the party. "I've killed some pretty big ones myself in my day. How big was he?"

"I don't know exactly," said the first man. "We never got a chance to measure him. Everybody in the bottoms, though, said he was the biggest ever seen in those parts."

"Well, now, it's funny you didn't measure him when he was so big," said the other panther killer. "Did you shoot him yourself?"

"Well, not exactly," said the man from Arkansas. "The fact is he was so big that he was killed with dynamite."

By this time the man from Arkansas had completely lost the confidence of the party around the table, and this last statement was greeted with a laugh. Nevertheless several of them said to each other, "Did you shoot him with dynamite?"

"Well," said the Arkansas man, "it was this way. I was working in a lumber camp over in the bottoms, and the talk of the whole camp was the big panther. I hadn't been there two hours before I heard some fellow say something about Big Tom and I don't know what he was one of those swamp angels that are handy with a Winchester and don't take any talk from anybody. But I found out that Big Tom was the name they had given to a panther that was roaming around in that neighborhood. I never could learn just why they called him Big Tom, and I never could find out just how big he was. One of the natives that had a tent and some things and nets over on the lake had been seen to have seen Tom, and he said the tiger was the biggest ever seen in Arkansas. They don't have many more than that as they used to over there. Before the levees were built they could stay in the woods the year round, but the levees coming further and further down the river and going higher and higher, so that where there was a place for the water to get through it made a big lake out of the country, and they drowned out the big game and drove it all to the ridges. That was the reason everybody supposed he was the biggest in Arkansas. This fellow over on the lake said he shot at Tom and hit him, but I guess he was like all these other fellows in Arkansas; they never will admit that they have wasted a bullet.

"People kept coming into the lumber camp and telling us about Big Tom's killing their pigs and what a terror he was to the country. I knew Tom must have been mighty bold or he would never have shot a Winchester bullet. He would have been anywhere there was a shot or anything else that was a nuisance to eat. I don't know what he was a man's camp. One day two little girls were out in the brush near their cabin picking blackberries, when one of them saw something yellow-looking in the bushes. There she sat there to hold a big panther walks right out into the clearing, looks at them, opens his mouth and howls and then turns around, as much as to say, 'I've got to get out of here.' He walks back into the brush. The two little girls were scared, and they didn't have any more blackberry pie in that house than a snake's hole. They ran, and the little girls said he was as long as a dog, though I guess they were so badly scared to have their senses about them."

"Funnier thing, though, was the number of times our house was shot at. There wasn't a man in the bottoms that didn't say he had put a bullet in him, and if he carried on all in his career he must have been weighed with about ten pounds of lead, and no piece of bigger than a Winchester bullet. The keeper of the fishing club's house over on the lake came and stood our pork on a hearth. He saw his house had snatched, but there wasn't anything in it. When he got started looking at things lying on the ground about three inches long and covered with hair. There was a little and branches and there was a hole big enough to bury a yoke of oxen."

"The dynamite," gasped the foreman as we got to the hole in the ground. "The table was simply driven into the ground and splintered. The camp ground driver had come down on it. The hole was about three feet deep, and in the hole were some patches of skin covered with yellow hair. There was the magnificent train, then scenes along the route, then St. Paul and surroundings, followed by Fort Snelling and Minneapolis. In all respects, composition, letter press, illustrations and binding, it is a dainty volume. Copies of this elegant book can be had by enclosing 35 cents (postage stamps not received) to George E. Lyman, general passenger agent, Burlington route, St. Paul, Minn.

Expense of remittance can be saved by several persons combining their orders.

DORCHESTER, MASS.

CARE OF THE TEETH.

Attention Should Be Paid to Them From Early Childhood.

Pretty much of our health and untimely death. When a woman is not possessed of this charm, it is frequently owing to neglect on her part.

I do not mean that the condition of the teeth depends wholly and entirely on the neglect of the mother. This is a common mistake. The mother's neglect of the teeth depends wholly and entirely on the neglect of the mother. The mother's neglect of the teeth depends wholly and entirely on the neglect of the mother.

Food must be of the proper sort and thoroughly masticated. If one is regularly washing and cleaning as those who are, and when the little one reaches the age of 2 years a lot of dental trouble is drawn between the teeth every night.

This is the time, too, when the teeth should be cleaned. The mother should be careful to see that the child's teeth are clean and healthy.

There is no time, too, when the teeth should be cleaned. The mother should be careful to see that the child's teeth are clean and healthy.

There is no time, too, when the teeth should be cleaned. The mother should be careful to see that the child's teeth are clean and healthy.

WALTER BAKER & Co.'s BREAKFAST COCOA.

(Contributions for this column must be sent in by Tuesday evening to the chairman of the board of editors, No. 5, Twelfth avenue east.)

The New York Life has lifted the "classification" ban from risks on women and they are now insured on the same terms as men. The company cautions its agents to use great care, however, in selecting female risks.

Agents will not be allowed to submit applications or to incur the expense of examinations upon the following classes of women without first submitting the facts to the home office: Domestic servants and factory operatives; illiterate women; women of years of age and girls under 15 years of age.

While the company will write whole life and limited payment policies upon select risks, it recommends that the agent should not make any such policy be written.

We quote an article of great interest in "Child Study in Schools," which appeared in the Chicago Times-Herald: A special department devoted to pedagogical investigation and child study will be established with the beginning of the new public school year if the recommendation of a special committee, adopted last fall, be favorably acted upon by the board of education at their first meeting after vacation, to be held next Wednesday.

The special committee, which met today to formulate a formal report to the board, consists of Dr. Frederick W. Smith, who is author of the child study idea; Mr. Mark Loesch and Stolz. This committee recommended that the board should have charge of the department and asked for an appropriation of \$2000 for the purpose of carrying out the plan.

The new department is to be in charge of a director and three assistants. Dr. Frederick W. Smith, who has been in charge of the investigations carried out by the board of education, is one of the assistants. Mr. Victor Campbell has been assisting in the work thus far.

The committee recommended an examination for the remaining assistants. The committee further recommended that the salary of the director should be \$1000 a year and that of each assistant \$500 a year.

A report of the work accomplished by the special committee through its investigations, carried out largely through the efforts of Dr. Smith, was presented to the board last week, and will be presented to the board of education at their next meeting.

The report is of great interest, and contains a number of valuable suggestions for the improvement of the public schools. WALTER BAKER & Co.'s BREAKFAST COCOA.

(Contributions for this column must be sent in by Tuesday evening to the chairman of the board of editors, No. 5, Twelfth avenue east.)

The New York Life has lifted the "classification" ban from risks on women and they are now insured on the same terms as men. The company cautions its agents to use great care, however, in selecting female risks.

Agents will not be allowed to submit applications or to incur the expense of examinations upon the following classes of women without first submitting the facts to the home office: Domestic servants and factory operatives; illiterate women; women of years of age and girls under 15 years of age.

While the company will write whole life and limited payment policies upon select risks, it recommends that the agent should not make any such policy be written.

We quote an article of great interest in "Child Study in Schools," which appeared in the Chicago Times-Herald: A special department devoted to pedagogical investigation and child study will be established with the beginning of the new public school year if the recommendation of a special committee, adopted last fall, be favorably acted upon by the board of education at their first meeting after vacation, to be held next Wednesday.

The special committee, which met today to formulate a formal report to the board, consists of Dr. Frederick W. Smith, who is author of the child study idea; Mr. Mark Loesch and Stolz. This committee recommended that the board should have charge of the department and asked for an appropriation of \$2000 for the purpose of carrying out the plan.

The new department is to be in charge of a director and three assistants. Dr. Frederick W. Smith, who has been in charge of the investigations carried out by the board of education, is one of the assistants. Mr. Victor Campbell has been assisting in the work thus far.

The committee recommended an examination for the remaining assistants. The committee further recommended that the salary of the director should be \$1000 a year and that of each assistant \$500 a year.

A report of the work accomplished by the special committee through its investigations, carried out largely through the efforts of Dr. Smith, was presented to the board last week, and will be presented to the board of education at their next meeting.

IN SPORTING CIRCLES

Baseball Season Here Winds Up With Games this Afternoon and Tomorrow With Minneapolis League Club.

COLLEGE FOOTBALL NEWS

The Duluth ball team winds up a very successful playing season, though a somewhat disastrous financial year, with games with the Minneapolis Western league team this afternoon and tomorrow afternoon. The Duluth team made a great fight for the Western League pennant, but lost to Indianapolis in the closing series of the schedule by general hard luck and injuries to players. The team which will tackle the champions tomorrow is practically the same that won 70 per cent of all the games played this year, and the showing of the Duluth team against these sturdy Western league men, has been anticipated for many long weeks by the fans, who are of the opinion that Walter Wilcox's team will give a tremendous surprise. Duluth, without doubt, has the strongest team it ever had, not excepting the old Western league and Western association teams that represented this city years ago. Tomorrow's game will close the season and the club will disband. None of the players have signed renewal contracts, and it is probable that tomorrow's game will also be the farewell appearance of several of the best players, who are slated to appear in faster company next year.

For the opening game with Minneapolis, today, Wilcox's team will wear the battery for Duluth and either Hart or Metcalf and Dixon or Fisher for the pitchers. Tomorrow's game will be called at 2:30 sharp and tomorrow's game will be called at the usual hour of 3.

Some fans have been trying all week to blot out the memory of the first two innings of last week's game. Now that the season is over, the least said is soonest mended. It is so much more pleasant to be able to think of the season as a whole, than to dwell on the details of the first two innings of last week's game. The season is over, the least said is soonest mended. It is so much more pleasant to be able to think of the season as a whole, than to dwell on the details of the first two innings of last week's game.

Lyle Kline's reinstatement was one of the best things that happened in the season. The trouble with Kline seems to have been that he was kept on first base all summer, when he should have been behind the bat. Last Sunday he caught a pretty game and had been where he belonged in the first two innings. It was a pity that he was not in the lineup. Kline's reinstatement was one of the best things that happened in the season. The trouble with Kline seems to have been that he was kept on first base all summer, when he should have been behind the bat. Last Sunday he caught a pretty game and had been where he belonged in the first two innings. It was a pity that he was not in the lineup.

The champions only faced Wilcox's team three times in the season. On Sunday, they reached first base. They got on safe hits, two on bases on balls, and one on an error. They were fortunate enough to cross the plate, which shows some very clever manipulating between the bases as none were earned runs.

Page's one hand catch of Wilcox's drive in the seventh was sensational. After striking out on two previous occasions, Wilcox smashed the ball out over Page's head at a terrific clip. The fat second baseman was seen to slowly rise off the earth about three feet, and the ball buried itself among his fingers.

Sheppard and Featherstone did some pretty fast work in the eighth Sunday. Porter was well on his way to a home run when he was caught by Sheppard. It was useless to try to catch Porter, who was running like a scared filly. Featherstone caught a quick, neat return to Lambert, and Porter was caught fully five feet off third.

Today the preliminary gridiron skirmishes begin among the Eastern and Western colleges. Among the most important games scheduled are: Cornell vs. Colgate university, at Rittenfield Springs, N. Y.; Northwestern vs. Englewood high school, at Evanston; university of Chicago vs. Knox college, at Chicago; Beloit college vs. Whitewater normal school, at Whitewater, Wis.; and the Carlisle Indian school vs. Gettysburg college, at Carlisle, Pa.

Important games scheduled for next Saturday are: Harvard vs. Williams, at Cambridge; Yale vs. Amherst, at New Haven; Pennsylvania vs. Lehigh, at Philadelphia; Carleton vs. St. Lawrence, at Plattsburgh; Wisconsin vs. Lake Forest, at Madison; Illinois vs. Wesleyan, at Champaign; Northwestern vs. Rush Medical, at Evanston; Notre Dame vs. Agricultural college, at Notre Dame; Beloit vs. Whitewater normal, at Beloit; Purdue vs. Alumni, at Lafayette.

Several games are scheduled for Wednesday of next week, including: Notre Dame vs. Englewood, at Notre Dame; Cornell vs. Syracuse university, at Ithaca; and Pennsylvania vs. Franklin and Marshall, at Philadelphia.

Minnesota opens the gridiron season on Oct. 7 with Shattuck military academy. Michigan opens the season on Oct. 11 with Western Reserve.

The local football situation is rapidly assuming shape, and will be in full swing in a few more weeks. The High School team and the New West Duluth Athletic team are the first in the field, both having put on several days of hard practice during the past week. So far, however, the work has been light and preliminary, but both teams will be in shape to take up kicking, passing, tackling and signal practice in earnest.

"First down, three yards to gain" that is the cry that will shortly be heard ringing throughout the land. The gridiron season for 1899 may now be considered of. Of course we haven't had the first battle yet, but anyway you look you see the

MULVON'S INHALER

CURES CATARRH

Colds, Coughs, Hay Fever, Bronchitis, Asthma and all Diseases of the Throat and Lungs.

Clouds of Mucous Matter are inhaled through the mouth and emitted from the nostrils, clearing and refreshing the throat and diseased parts which cannot be reached by medicine taken into the stomach.

It reaches the seat of disease—It acts as a solvent and tonic in the whole system—\$2.00 a bottle or sent by mail. 1505 Arch St., Phila.

CAN'T GO TO COAST

President Disappointed in Desire to Visit Oregon and California.

TIME IS TOO LIMITED

Was Urged to Come to Duluth But Unable to Do So.

From The Herald Washington Bureau.

Washington, Sept. 23.—(Special to The Herald.)—People in every state of the Mississippi will be just as much disappointed in the president's decision as the people of the Pacific coast states, and there is a possibility that a chairmanship or two may go to the representatives from that section. Just what the coming speaker will be able to do with the matter of chairmanships and assignments on very good committees.

The far West may not be given as much recognition as it has ever had in the past, and there is a possibility that the president's decision will be just as much disappointed in the president's decision as the people of the Pacific coast states, and there is a possibility that a chairmanship or two may go to the representatives from that section. Just what the coming speaker will be able to do with the matter of chairmanships and assignments on very good committees.

An Old Resident Dies.

Conrad Kall, an old resident of Du-
luth and well known and much re-
spected, died yesterday at St. Mary's
hospital of heart disease. The deceased,
whose home was at the corner of Second
avenue west and Third street, was 68
years of age, and he had lived in Duluth
fifteen years. He leaves one daughter,
Mrs. C. S. Fulton. The funeral will be
held Tuesday.

Don't suffer from toothache. Get Dent's Tooth-
ache Gum. All drug stores, 15 cents.

Two Funerals.

The funeral of Charles A. Dahl, who
died at St. Luke's hospital of typhoid
fever Friday morning, will be held to-
morrow afternoon at 2 o'clock from the
deceased's late home, 329 East Seventh
street. He was 24 years of age.

The funeral of Caroline Thompson,
who died Saturday, will be held Wednes-
day afternoon at 2 o'clock from the
family residence, 12 East Fifth street.

"Better Be Wise Than Rich."

Wise people are also rich when they
know a perfect remedy for all annoying
diseases of the blood, kidneys, liver and
bowels. It is Hood's Sarsaparilla, which
is perfect in its action—so regulates the
entire system as to bring vigorous health.

Hood's Sarsaparilla

Never Disappoints.

SABBATH BREAKING

Meeting at First Methodist
Church to Protest Against
Sunday Desecration.

REST IS NECESSARY

Resolutions Pledging Ser-
vices of All Interested to
Abolish Sunday Labor.

The initial meeting of the series
of mass meetings to be held in the in-
terest of Sunday observance, was well at-
tended yesterday afternoon. The meet-
ing was held in the First Methodist
church and Rev. Alexander Milne, pas-
tor of the church, presided. John McMur-
chey, president of the Federated Trades as-
sembly, was the first speaker, and the
only speaker representing organized
labor, as Edward Kriz, who followed
him, spoke more in the interest of so-
cialism.

Mr. McMurchey said that in begin-
ning a fight against Sunday labor it
would be well to insist against the
government allowing this violation of
the day of rest. He said the government
has employees that have to work on Sun-
day, and the principal evil seemed to
lay with the railroad, who compelled
their men to go out on the road, while
the owners of the road were permitted
to give their men the day and forget all
about the men out working and mak-
ing fortunes for them. Mr. McMur-
chey said that the dockmen's unions
were compelled to work on Sunday in
order to be allowed to work on other
days. He also spoke of the danger of
permitting small stores to keep open on
Sunday, saying that if this were continued it
would probably be but a matter of time
until the larger stores followed the same
practice.

Dr. A. W. Ryan, pastor of St. Paul's
Episcopal church, made a very inter-
esting address in which he said that the
observance of the Sabbath as a religious
matter, but it was also a practical matter.
He said that the man who compels his em-
ployees to work seven days in the week
does not get as much good out of them as
the man who only works six days. He
also said that those looking for amuse-
ment on the Lord's day were making
themselves an injury. The Sabbath
day is a day of rest on which the
people should improve their minds and
rest their bodies. Continuing Dr. Ryan
said: "What we want in the work-
ing-man is intelligence, alertness, and
morality. Workingmen must be in-
telligent enough to compete with any
class or body of men. They must be alert to
all the work that is required of them
in a reasonable time. If they work
seven days in the week they will not
have the time to improve themselves."

"This country started out right in the
labor matter, but has gradually de-
generated. To overcome this we must
arouse public opinion. It will not pay
to talk about the moral and public offi-
cers, but we must have a condition as ex-
ists today. But public opinion will
bring about whatever it goes about to
correct."

Dr. T. H. Cleland, of the First Presby-
terian church, after introducing Dr.
Ryan's statements, said that he be-
lieved that Sunday labor was one case
of over-production. He suggested that
a committee be appointed to confer
with business men who employ Sunday
labor and ask them to do away with it.
The meeting adopted the following
resolutions against Sunday labor and
desecration:

"Whereas, it is evident that long
hours and Sunday labor do more to de-
stroy the masses than all other
causes; long hours of labor will make
the poor poorer, and less intelligent,
and the rich richer, a condition not de-
sirable by a liberty-loving people, and
"Whereas, the desecration of the Sab-
bath is a violation of the moral and
natural outcome of low conditions, and
the logical remedy is the elevation of
the wage worker, and
"Whereas, it is the object of trade
and labor organizations to decrease the
hours of labor and thereby to increase
the wages and the hours for mental and
moral advancement through which the
wage worker elevates his condition in-
to intelligent citizenship, and when any
people disregard that law of God, the
member the Sabbath day to keep it
holy, they degenerate and are severely
punished.

"Therefore, be it resolved, that all
those interested in the above aboli-
tion of Sunday labor pledge their moral and
financial support to organizer labor
in all its attempts to right the cause of
Sunday labor and kindred evils."

ANNUAL HARVEST FESTIVAL.

Salvation Army to Celebrate It
Next Week.

The Salvation Army's annual harvest
festival is to take place this year from
Sept. 30 to Oct. 3. Prepara-
tions are on foot to make the occa-
sion one of signal success in Duluth. A
series of appropriate meetings are being
arranged by the local corps, which
promises to be of special interest and at-
traction. More detailed information with
respect to the program will be published
later.

The good work which this organiza-
tion has carried through, and the suc-
cess which has attended its dealings
with the most outcast and forlorn com-
munity, the appreciation of all who sym-
pathize with the moral and spiritual
needs of the people. No small matter
these will avail themselves of this op-
portunity of showing their confidence in
such praiseworthy efforts.

The Salvation Army has set itself as
a goal of financial result the sum of
\$100, which will be devoted to the main-
tenance and extension of its many ben-
eficent agencies. All friends and sym-
patizers who would like to give offer-
ings at this time are earnestly invited
to do so. Gifts need not of necessity
take the form of monetary contribu-
tions. Offerings in kind and of any
kind will be equally acceptable. Noth-
ing to eat, wear or look at will be re-
fused.

THE PIER WORK

Progressing Rapidly and Bids
Fair to Be Completed
on Time.

Work at the canal on the new pier
which are being put in by the govern-
ment is progressing much more favor-
ably than it was during the last season.

All three of the contracts are being
pushed at a much better rate of speed.
In fact, look some time ago as if it
would be impossible to finish the work
within the time fixed, but there is now
reason to believe that all will, or at
least that they will not be very far be-
hind.

King & Steele sank another crib this
latter part of last week, making nine
in all that are now in place. This makes
200 feet of the new work being struc-
ture in place. This extends from the
outside in toward the point. The
firm also has sunk three more cribs
almost ready to sink. The trench is
now open clear through the point, and
all the work hereafter is protected from
the waves, and the contractors will not
have to wait for favorable weather
every time they wish to sink a crib.
This last crib was not towed outside
and sunk, as their boats were very
towed through the trench and put in
place. There is twenty-two feet of
work hereafter is necessary for the
required to complete their contract by
December, and they expect to do so.
A short time ago the crib was
sunk, and at the present time it is
likely that they will be able to sink
hereafter have protection in all the
work they have to do is a great big
factor in their favor.

The Butler-King company had con-
siderable trouble during the summer
with the sawing machine which is used
in cutting off the piles, but it is now
working well, and the piling for the
substructure of the north pier is being
put in rapidly. The building of the crib
is well along, and when the sinking is
once begun they will go down rapidly.
Charles Stone, who has the work of
constructing the crib, says that the
cribs for the north pier, the placing of
the footing blocks on the south pier
and the building of the lighthouse
superstructure of the south pier, has
done very little on the two latter
parts of the work.

As soon as the monthlong work on the
pier head of the south pier is completed,
which will be early next season as
the weather that is required of them
department will begin the construction
of the new lighthouse and fog signal
station, which has been long standing.
It will be a handsome building of brick
and stone, and will present a very much
different appearance from the struc-
tures which now adorn the end of the
pier. The work can commence within a
few days after the monthlong work has
been completed. The department is
ready to go ahead and it is very pos-
sible, so that there will be no delay
in the work.

BETTER THAN THE KNIFE.

Pyramid Pilo Cure Cures Piles Quick-
ly, Painlessly, Without Danger.

People get sore, red, raw, suffering
with piles. They try this and that, but
the other thing, from carrying a buck-
le, to getting treatment from a physi-
cian, but they are never cured. A
little strain, a little constipation, or a
little diarrhea, and the piles come back.
The don't seem to amount to much,
but they banish sleep and appetite. No
position, they feel that dread, agonizing
feeling of weight in the
perineum.

Maybe in the early stages some of
the many salves on sale will afford tem-
porary relief. If we could but find a
remedy that is only one and sure
cure. It is the Pyramid Pilo Cure. Even
in light cases it is the best thing to
use. Other applications may cure and
cure, but the Pyramid Cure is a sure
cure, always reliable, always brings
relief at once. Its prompt use saves
months of suffering and many cases
it will save surgical operations and
their attendant dangers and dis-
comforts. It is better than a knife. It
cure easier, quicker and safer. Thou-
sands have used it. Thousands have
been cured by it. The cost of getting
cured with what it does. The price
is small. The Pyramid would gladly pay
\$10 to be rid of piles.

Druggists sell Pyramid Pilo Cure. If
you have tried it, he will get for you
from the Pyramid Drug Co., Marshall,
Mich., sole manufacturers.

KEARSARGE TRIAL.

Boston, Sept. 25.—The new battleship
Kearsarge left her anchorage about four
miles off Boston light today for the trial
court of Cape Ann, where she is to have
her speed trial today. The members of
the naval trial board, representatives of
the Newport News Shipbuilding and Dry
Dock company, the United States navy
and several men who had been granted
leave from the navy, were on board for
the trip went on board the battleship
just before she was under way. The
weather was excellent at the start, the
sea smooth and the wind moderate
from the south-southwest.

A famous dish for breakfast, keeps the
whole family well, costs only 25c, sent
one package of Rocky Mountain Tea.

DELEGATE ARRIVES.

New York, Sept. 25.—Among the pas-
sengers who arrived today on board the
steamer Alta, from Baltimore, was John
A. Castellino, delegate to the Philadelphia
congress from Colorado.

Nasal CATARRH

In all its stages
Ely's Cream Balm
cleanses, soothes and heals
the diseased membrane
of the nose, and drives
away a cold in the head
quickly.

Cream Balm is placed into the nostrils, spreads
over the membrane and is absorbed. Relief is im-
mediate and a cure follows. It is not drying—does
not produce sneezing. Large Size, 50 cents at Drug-
gists or by mail, Trial Size, 10 cents by mail.

DIAMOND MINE. NO RECEPTION.

E. W. Griffin Says It Will Be a Big Shipper Next Year.

E. W. Griffin, one of the pioneer iron men and iron land explorers of the Mesabi range, was at the St. Louis yesterday, and confirmed the report that the Diamond mine near Grand Rapids would be one of the large shippers on the Mesabi next year. Reports that this mine would be opened up have been published from time to time, but Mr. Griffin says that as soon as the shipping season opens up next spring the Diamond mine will be one of the largest shippers on the range, ranking with the Fayal, the Mahoning and Mountain Iron properties.

The Diamond mine was just about ready to begin shipping when the financial troubles of 1898 began, and the owners of the mine shut down rather than continue operations and risk running at a loss. The main shaft is now down 100 feet, and Mr. Griffin says that it taps an immense body of high grade ore. The plant which will be put in between now and the beginning of next year's shipping season will have a capacity of over 200,000 tons a year, and it is confidently expected that the present demand for ore and the outlook for the iron and steel trade the mine will be worked to its capacity the first year.

At present there is no railroad connection with the Diamond, but a design has been filed with the Great Northern whereby a road will be built up to the mine by next spring. Mr. Griffin has watched the development of the Diamond mine since their discovery, and he says the extreme west end of the range will be the best in the next few years.

Only One Pleaded Guilty.

Out of a bunch of seven defendants for the rock pile, in the municipal court from this morning, only one pleaded guilty to initiate the example of George Washington and pleaded guilty. The others will probably have to be followed suit, as James McDonald, the man who admitted he hit it with his little jag, was allowed to go under a suspended sentence. Robert, Peter, Charles and Mrs. R. Kruglak, charged with drunkenness, failed to materialize when his name was called, and his \$10 bail was forfeited. John Stenmark, James Smith and E. C. Johnson, all charged with disorderly conduct, pleaded not guilty, and their hearings are set for Sept. 26 at 10 o'clock in the morning, on account of the absence of officer Kessner, the complaining witness, from the city. Edward J. Burghard with vagrancy, pleaded not guilty, as did Pat Decker, charged with drunkenness, and their hearings were set for 2 o'clock this afternoon.

PEOPLE TESTIFY.

Reference That is Surely Worth Looking Up.

A Duluth Man Who Tells His Friends What Has Done Him Much Good.

We will tell you what will cure the worst kind of a case of backache caused from the kidneys. We will not only tell you, but will refer you to people in all walks of life in city of Duluth who have used Kid-neo-ids with the best results. We ask you to read this statement from:

F. H. Pitt, car starter for the Duluth Street Car company, 2320 Michigan street, who says: "I have been afflicted with kidney backache for the past twenty years. I could scarcely straighten up at times on account of stiff and lame back. I was so nervous and restless I could not sleep. I was subject to spells of dizziness and suffered from indigestion. I tried different kinds of kidney remedies, but none of them proved as effective as Morrow's Kid-neo-ids. I used Kid-neo-ids according to directions and they effected a complete cure. I never felt better in my life. Kid-neo-ids not only cured me of kidney troubles, but they built up and invigorated the entire system. Through my recommendation several of the boys on the line have used Kid-neo-ids for backache and they invariably report the most satisfactory results."

Morrow's Kid-neo-ids are not pills, but Yellow Tablets and sell at 50 cents a box at all drug stores and at S. P. Boyce's drug store.

Mailed on receipt of price. Manufactured by John Morrow & Co., Chemists, Springfield, Ohio.

PRISON CONGRESS

Annual Session of the National Prison Congress Held at Hartford.

A PAPER BY WOLFER

Warden of Minnesota Prison Talks on Employment of Convict Labor.

Hartford, Conn., Sept. 25.—Vice President Wright called the third day's session of the national prison congress to order in Kenney hall today. It was decided to appoint committees on the selection of time and place for the next meeting and to nominate officers for the ensuing year. Vice President Wright vacated the chair and it was taken by Gen. Nelson Viatt, the warden of Rhode Island state prison. Warden Henry Wolfer, of the Minnesota state prison, was appointed vice chairman of the meeting.

The annual address of President A. T. Hart, the superintendent of the state reformatory of Indiana, at Jeffersonville, was read by Warden Scott, of Concord, Mass.

Two papers were read, the first on "Employment of Prisoners," prepared by Warden Hoyt, of the Colorado state prison, and the second on "Employment of Convict Labor," by Warden Wolfer, of the Minnesota state prison. Warden Wolfer's paper called out a long discussion. The delegates were tendered a reception table this afternoon.

MR. WOLFER'S PAPER.

Henry Wolfer, warden of the Minnesota state prison, read a paper on the "Employment of Convict Labor." He said in part:

It is a problem difficult of solution because of the little interest in the world as a natural prejudice against it on the part of honest free laborers. It is a problem which we must solve if we are to have a better world. It is a problem which we must solve if we are to have a better world. It is a problem which we must solve if we are to have a better world.

It is a problem difficult of solution because of the little interest in the world as a natural prejudice against it on the part of honest free laborers. It is a problem which we must solve if we are to have a better world. It is a problem which we must solve if we are to have a better world. It is a problem which we must solve if we are to have a better world.

SAILORS' NARROW ESCAPE.

Thrilling Experience of Crew of Chicago Tug Dorr.

Chicago, Sept. 25.—When the storm of last night was at its height, the tug J. Dorr, bound from Michigan City, Ind., to Chicago, was abandoned by its crew, who by a desperate effort, succeeded in transferring themselves to one of the scows in tow of the tug. The Dorr filled with water, which piled over her deck, and sank about eight miles off South Chicago, leaving Capt. Peterson and the crew of three to loss about the time of the sinking. The Dorr was a small tug, and the crew was in a perilous position. They drifted shoreward steadily, however, and at midnight jumped to the surf near shore and landed twenty-two miles west of Michigan City. They spent the night in the woods. The tug was owned by the Green Dredging company.

KEARSARGE STARTS WELL.

Battleship Attains Seventeen Knots Against a Head Wind.

Rockport, Mass., Sept. 25.—The battleship Kearsarge started on her initial trial trip off this point today, crossing the line at 10:25:40. As the big battleship crossed the line under full headway, her bow pushed up an enormous volume of water, and great waves were thrown up astern by the screws. She made out the good speed, however, although the head wind was against her.

The vessel passed the Potomac, the second mark boat, 6.6 miles from the start, at 10:30:45 shore time, covering the distance in 24 minutes and 5 seconds. This shows a speed of 16.44 knots. From the shore the third mark was indistinct, but the Kearsarge appeared to have it ahead at 11:14, having taken 24 minutes to make her speed 12.6 knots per hour. These are sections of the course over which formerly the lowest time has been made. At 1:24 the big ship was lost to view in the haze.

The Kearsarge crossed the finish line at 2:43:10 having taken four hours twenty minutes, thirty seconds for the run. An estimate, deduced from the minutes for turning at Cape Porpoise, shows that she exceeded seventeen knots by a fraction.

GEO. R. LAYBURN, 14 Phoenix Bk.

DETROIT HAS ITS TROUBLES.

General Strike of Street Car Employees Imminent There.

Cincinnati, Sept. 25.—A committee, consisting of Joseph P. Morgan, secretary of the Amalgamated Association of Railway Employees and several street car employees, called on President Kluge today and presented demands for 50 cents per hour, ten hours per day, stools for conductors and on certain points, arbitration previous to discharge and on other matters, reinstatement of all discharged employees and a general strike.

STILL GRINDING.

New York, Sept. 25.—Several witnesses were examined in the Mazette case today as to the propriety of the practice of judicial candidates contributing to campaign funds. There was a division of opinion, though the majority expressed a willingness to hear a proper proportion of the cost of the election. Chairman Mazette said the committee wished to learn the views of the judges on the question of the propriety of a law forbidding candidates for the judiciary to contribute to campaign funds.

HAYBROW'S SIT.

Harrisburg, Pa., Sept. 25.—Governor Stone today appointed J. Haybrown, of Lancaster, to the vacancy on the supreme bench created by the death of Judge Henry W. Williams, of Wellsboro, last winter.

WITTMAYER BANKRUPT.

Chicago, Sept. 25.—Gustav and Louis Wittmeyer, formerly in the millinery business, filed a petition in bankruptcy today, scheduling liabilities of \$75,000 and no assets. The principal creditors are New York firms.

DEWEY AT NEW YORK

Olympia Arrived Off Sandy Hook at an Early Hour Tuesday.

All on Board Well and Glad to Be Home Again.

New York, Sept. 26.—Much to the surprise of everyone in the city, the Olympia, with Admiral Dewey on board, arrived off the Sandy Hook lightship at 5:55 this morning. There was a heavy mist on the sea, and at first the marine observers were inclined to think the vessel sighted might be Rear Admiral Howison's flagship, the Chicago, hardly believing Dewey would arrive two days ahead of time. The doubt was soon cleared away, however, and as passing vessels recognized the flag from Manila bay there was a continuous blowing of whistles in salute. One of the first largest vessels to sight the Olympia was the Sandy Hook lightship, which left Atlantic Highlands shortly after 7 o'clock for New York dock. Just as she got well under way a war vessel was seen through the fog, and the passengers gathered at the rail to read the commander's name. To get near enough to do this the Sandy Hook changed her course and headed directly for the Olympia, blowing her whistle in salute as she did so. As soon as the name was made out the Sandy Hook's passengers cheered with all their might, and in a few moments an answering cheer came over the water from the warship salutes, many of whom were gathered on deck.

The flagship came up to the lower bay and anchored inside Sandy Hook. As soon as the anchor was dropped, an orderly was sent ashore with dispatches from the admiral and other officers. He said the ship had had a pleasant trip across the Atlantic and all on board were well and glad to be home again. The Olympia's crew were not to work immediately cleaning. Many small vessels are sailing around her and their number is being augmented constantly. The members of Admiral Dewey's family, who are stopping at the Waldorf Astoria, did not seem very anxious to see their distinguished relative's arrival. Charles Dewey, the admiral's brother, said: "This is not altogether unexpected, as we thought the admiral would be here a couple of days before the celebration. Probably he desired to have a couple of days to get the ship in good condition for the celebration. None of the family will go down the bay to see the admiral and none of us expects to before Thursday."

The admiral's early arrival was a matter of great concern to the city authorities who are arranging the New York's official welcome. Secretary Foster, of the reception committee, went to the city hall early and at once issued a call for a special meeting of the committee. Mr. Foster said he could not forecast the committee's action, but he thought it probable that the committee would go down to the Olympia this afternoon. Mayor Van Wyck hurried to his office, where he found the surprise telegram. "Olympia arrived this morning. Will go to Tompkinsville tomorrow," "GEORGE DEWEY."

The mayor advised the calling together of all committees, and telegrams were sent out to the plan and scope committee and various sub-committees to meet as quickly as possible at the city hall. The Sandy Hook steamer Monmouth passed the Olympia early this morning, and those on board of her were the first to see Admiral Dewey. One of the Monmouth's passengers said: "We saw Admiral Dewey quite plainly. He stood alone on the quarterdeck of the warship. Fifteen feet behind him stood eight of his officers in uniform. The admiral alone of all the men on board ship acknowledged the cheers of the passengers and crew of the Monmouth. He raised his hat continually bowing and smiling. The ship looked in fine trim, considering her long voyage, but the exterior of her hull seemed rusted. Today, for the first time in many years, an admiral's salute was fired in New York bay. Fort Hancock saluted with seventeen guns when the Olympia passed coming in. There was no demonstration of an official character in Rear Admiral Sampson's fleet off Tompkinsville when the news of the Olympia's arrival was received. Signals announcing Dewey's arrival were hoisted and there was considerable cheering which, although a violation of the strict rules and regulations of the navy, was not officially noticed by the commanding officers.

There will be no action taken by Rear Admiral Sampson of saluting Admiral Dewey until the Olympia reaches the upper bay. When the Olympia reaches the upper bay, Admiral Dewey will send the signal station will be decorated with 1000 red, white and blue electric lights on the terrace, the letters standing nine feet high, spelling "Welcome Home." They are set against a natural background of green and show white in the day time and will be lighted with electricity at night. When the arrival of the Olympia was made known this morning the reception committee in this city at once communicated with Rear Admiral Philip at the Brooklyn navy yard, and requested him to send a detachment of his army and navy to meet the admiral and crew of the Olympia at once conveyed to that vessel. Rear Admiral Philip detailed Lieut. Dewey, who is a nephew of the admiral, and is attached to the receiving ship, Vermont, to receive the navy and army. Traffic and passed to Sandy Hook to meet the admiral. The tug carried, besides the mail, the Manila medals of the officers and crew, and the silver service for the officers, and the Dewey shield for the battleship.

Admiral Dewey, receiving the news, off Tompkinsville, detailed his chief of staff, Capt. Chadwick of the cruiser New York, to go down to Sandy Hook, meet Admiral Dewey and confer with him as to what plans he has for his arrival before Thursday, the day set for the reception. Rear Admiral Philip gave it as his opinion that there would be no change in the original plan for the naval parade or its attending ceremonies. The unexpectedly early arrival of Admiral Dewey is likely to result in a change between Governor Roosevelt and the city members of the Dewey committee, as the governor's plan is to have a reception committee by going down the bay in a private launch, and the first man to board the Olympia. Each member of the reception committee was requested to meet in the city hall at 2 o'clock to arrange for a reception of Admiral Dewey later in the day. The city hall is the headquarters of the reception committee. The city hall is the headquarters of the reception committee. The city hall is the headquarters of the reception committee.

The executive committee which had in charge the Dewey celebration, the state's part in the Dewey celebration this morning and completed their arrangements. THE URBANETA'S CREW.

Names of the Men on the Captured Gunboat.

Washington, Sept. 26.—The navy department today received from Admiral Watson a cablegram announcing the destruction of the gunboat Urbaneta. Reported in the press dispatches of yesterday. Another dispatch from the admiral states that he learns through insurgent sources that her commander, Naval Cadet Welborn C. Wood, was killed in the action. The fate of the crew is not known. Admiral Watson's dispatch follows:

"Manila, Sept. 25.—Secretary of Navy, Washington: Gunboat Urbaneta, Capt. Welborn C. Wood commanding, has been captured and destroyed by the insurgents while blockading. The wreck is hard aground, water two feet deep, near Orani, on Orani river, northwest corner of Manila bay and is completely gutted. Draft, maximum, was less than six feet. Displacement in tons, forty-two. Heavy armament, 1-pounder rapid-fire gun, one machine gun (Colt automatic), one machine gun (Nordenflied) twenty-five millimeters. The reason of his presence in that river is not known. Commander Conwell was preventing the landing of arms with forty men. His force too small to attack armed insurgents at the village. Water is only six feet deep on the bar at the mouth of the river. Cannot oblige by further information of the crew as yet because insurgents will not respect flag of truce. Cadet Wood, with Chinaman and one man and one of them are attached to the Oregon, as follows: Benjamin Greene, coxswain; William Mitchell, seaman; Samuel Tilden Herber, ordinary seaman; Edward Burke, ordinary seaman; George Daniel Powers, apprentice, first class; Arthur William Drummond, machinist, first class; John James Farley, fireman, first class; Thomas Grey, fireman, second class; Samuel Stone, seaman. Report by mail.

WATSON."

K. P. MEETING.

Grand Lodge of Minnesota Is In Annual Session at St. Paul.

St. Paul, Sept. 26.—The Minnesota grand lodge of the Knights of Pythias met here this morning at the state capital with about 150 delegates present. Past Chancellor W. A. Greer, of St. Paul, made a brief address and introduced L. A. Rosling, private secretary to Governor Lind, who delivered an address of welcome on behalf of the delegates on behalf of the city and state. The delegates on behalf of the city and state. The delegates on behalf of the city and state.

PAVE WAY FOR PEACE

Believed That British Note to the Transvaal Will Lessen Tension.

GREASES THE SLIDE

Gives Kruger a Chance to Descend Gracefully--Burg-hers Are Insolent.

London, Sept. 26.—The general feeling, including that of the pro-boers, as indicated by articles in the afternoon newspapers today, is that the published dispatch of the secretary of state for the colonies, Mr. Chamberlain, to the British high commissioner in South Africa, Sir Alfred Milner, clears the way for peace if the Boers desire it. In any event, it is pointed out, it affords further delay, which in the case of Great Britain is advantageous, as it gives time for the reinforcement of the army. The dispatch, however, expresses the hope that President Kruger will now see his way to meet Great Britain's views and the Westminster Gazette, which is not an entirely pro-boer paper, says that Kruger and his advisers still have a chance of securing peace with independence.

Meanwhile, the dispatch of troops to South Africa proceeds. Three field batteries arrived at Birkhead today and will embark for Durban, Natal. A cablegram from Cape Town says: "Quantities of stores and ammunition are leaving here daily. The movement of troops to Natal is merely a precautionary measure to secure the coal mines, and is not in the nature of a move. There are no imperial troops on the immediate border. Rumors of collisions should be received with caution."

A dispatch from Pretoria says that a Boer officer, in the hands of a boer who was practicing with it, burst recently and nearly killed him, with the result that a great number of boer officers of the new weapon. They assert that the cartridges are worthless and are appealing to the government to revert to the Martini or investigate and remedy the grievances. The Times has a dispatch from Johannesburg which asserts that the delay is creating the worst possible impression in the minds of the boer officers who countenancing delay upon the part of the Boers are intentionally and unnecessarily prolonging the controversy because she is afraid to follow up her own claim with arguments of force.

Reports are heard on all sides of the Boers who are starting hostilities, and the postponement is said to be due to the fact that it is believed the influence cannot be exercised much longer. There is a circumstantial rumor that Gen. Joubert has received imperative orders from the war office to take the initiative with his army. This is looked upon as an instructive indication of Boer feeling.

MET ON THE CURVE.
A Bad Wreck on the New York Central.

Auburn, N. Y., Sept. 26.—A head-on collision between a New York Central passenger train and a freight occurred this morning at 8 o'clock just west of Old Flatbottom bridge, about half a mile west of the city, and as a result three people are dead, two fatally injured and four seriously injured. The dead are: Emmet Lanctot, of Rochester, engineer of the freight; J. G. Curry, of Rochester, fireman on the freight train; James E. King, of Skaneateles.

Fatally injured: R. J. Frew, of Geneva, baggageman, skull fractured; Thomas Dugan, Geneva, engineer, passenger train. Others injured: S. Ludolph, of Rochester, brakeman on the freight train, both legs broken and otherwise injured; Byron Nellis, of Geneva, fireman, passenger train; C. A. Martin, conductor of the passenger train; Charles Perrons, trainman on passenger.

The responsibility for the accident has not yet been determined, but the freight, which is due at 1:35, was running on the line of the passenger train, which was known to Conductor George Eighme, of Rochester, who had charge of the freight, when he ordered his train to leave Aurelius, the first station west of the city. The place at which the accident happened is about a half mile west of the city limits, and there is a sharp curve. The freight train, several hours late, was making fast time, and when the two came in sight the speed was so great that a stop could not be made.

KNEZEVIC EXECUTED.
Conspirator Publicly Shot--The Conviction Causes Dissatisfaction.

Belgrade, Sept. 26.—Knezevic was shot publicly yesterday afternoon in the presence of a large crowd. In view of the absence of trustworthy evidence, the finding of the tribunal is the subject of general condemnation. After the sentence was read, Paistich was informed that King Alexander had pardoned him.

WOODEN PACKAGES GO.
Washington, Sept. 26.—Commissioner Wilson of the internal revenue bureau, has rendered a decision by which existing regulations regarding packages to contain distilled spirits are so modified as to permit wooden packages of a capacity not exceeding 100 gallons to be used as wholesale liquor dealers' packages, from which to draw distilled spirits for bottling. Under the former regulations no larger packages than barrels were permitted to be used.

GERMAN METHODISTS.
St. Paul, Sept. 26.—The Northern German M. E. conference held its closing session yesterday. Bishop Wood, before reading the appointments, addressed the ministers briefly, stating that he knew it would be impossible to suit all the sixty or more men in the conference with appointments, but thought now of the appointments made could be justly regarded as affections to the quinquies. He read the appointments: G. W. Rathke is appointed for Duluth and West Superior.

PRIVATE WOOD DEAD.
Washington, Sept. 26.—Gen. Brooke cables from Havana the announcement of the death of Private William Wood, C. Eighth Infantry, at Quemadag, on the 23rd, of peritonitis.

Our Annual Autumn and Winter

Millinery Opening

will take place

Thursday, Friday and Saturday.

In connection with this ever interesting event we will hold our usual—

Fall—

Millinery Opening.

Both to be on a more magnificent and more elaborate scale than ever before attempted by us.

The Big Store will close every night at 6 p. m., except Saturday; that day we will keep open until 10 p. m.

MUSIC..... every day and Saturday night by EDISON'S latest improved Concert Phonograph. Come and listen to one of the wonders of modern times.

Advertisement in tomorrow night's Evening Herald giving a list of the most wonderful bargains ever offered by us.

Every Resident... in St. Louis and Douglas counties is invited to participate in the bargains and attend our opening. Merchants, Milliners and Clerks specially invited to visit a modern store, conducted on modern, up-to-date ideas.

PANON & WHITE

ALBERTSON

TO SAVE CARTER

MacVeagh Presents Arguments For a Rehearing of the Captain.

COURT INCOMPETENT

He Says That It Was Not Fit to Deal With the Case.

Washington, Sept. 27.—Attorney Gen. Grieg today gave a hearing to Hon. Wayne MacVeagh, counsel in the court martial case of Capt. O. M. Carter of the army. MacVeagh asked for a judicial hearing in the case, saying that if the president affirmed the proceedings he would be guilty of an act of great cruelty and wrong. The record, he contended, was so saturated with errors of law that it is impossible in a country governed by law to affirm the finding. Before proceeding with his argument proper, he corrected what he designated as erroneous reports concerning the case. The first of those to which he gave his attention was a statement that Attorney Gen. Alger had allowed the attorney general for Capt. Carter to take away and take possession of the records in the case. This, he said, was absolutely untrue. Counsel for defense had never seen the original record and had received no favors. It was also false that the representatives of Capt. Carter had importuned the president in the captain's behalf. On the contrary, the only pressure brought to bear upon the president was from the other side, for the affirmation of the finding. He recited eleven instances of what he termed positive inventions relating to the case. The first of these appeared less than a year ago. One new case was announced, Mrs. O. J. Wette, wife of the cashier of the First National bank. This made a total of three cases since yesterday afternoon. The town is tied up with quarantines. A light frost appeared this morning.

PENSIONS INCREASED.

When Mrs. Sept. 27.—Special to The Herald.—Increases of Minnesota pensions were granted today: Nelson Ornt, Sault Rapids, from \$8 to \$9; Traggott Schmidt, of Buffalo, from \$8 to \$10.

FIFTH AT JACKSON.

Jackman, Mass., Sept. 27.—The yellow fever situation today appeared less encouraging. One new case was announced, Mrs. O. J. Wette, wife of the cashier of the First National bank. This made a total of three cases since yesterday afternoon. The town is tied up with quarantines. A light frost appeared this morning.

DEWEY IS CHEERED

Passage of the Olympia to Naval Station Seen By Thousands.

Admiral Dewey Repeatedly Doffed His Cap to the Cheering Crowds.

New York, Sept. 27.—Admiral Dewey rose early today and could be seen from the Atlantic highlands peering the Olympia quarter deck. The warship was surrounded by a manner of sailing and steam craft, including a number of newspaper boats, which anchored near the flagship all night. There was no answering boom of guns from the flagship, but a string of signal flags were sent aloft in response. An official visit was paid to Admiral Dewey by Maj. Harbuck, commandant at Fort Hancock, and his staff. The visitors were met at the gang plank and escorted to the admiral's cabin, where they spent half an hour. When they returned to shore all members of the party were enthusiastic over the reception. At 9 o'clock the Olympia started up the bay for the government anchorage off Tompkinsville. The passing thither was triumphant, all sorts of craft, including the dispatch boat Dolphin, with Assistant Secretary of the Navy, Allen on board, accompanying the Olympia up the bay. The thousands that greeted Admiral Dewey and the Olympia had seen the hero of Manila, who, as he stood with Secretary of the Navy, Charles D. Smith, on the superstructure, repeatedly doffed his cap to the cheering crowds in returning their vociferous salutations.

It was expected today that, while both Admiral Dewey and Rear Admiral Sampson would be present, the arrangements giving Rear Admiral Sampson full control of the naval portion of the demonstration in Admiral Dewey's honor. Rear Admiral Sampson will be a guest at the reception, but his presence will not interfere with Rear Admiral Dewey's duties.

Admiral Dewey's relatives, who have been stopping at the Waldorf Astoria as the guests of the city, started on the government tug Saratoga at 8 o'clock this morning to pay a visit to the admiral on the Olympia. There were fifteen in the party, as follows: Mr. and Mrs. Charles Dewey, of Montpelier; W. T. Dewey, their son; James P. Dewey, son of W. T. Dewey; Charles Robert Dewey, nephew of the admiral, and his wife; Mrs. James L. Martin, Mrs. H. L. Finley and Miss Frances A. Finley, Edwin Dewey, brother of the admiral, and his wife; Mr. and Mrs. F. B. Egan, the latter a niece of Admiral Dewey. Lieut. Theodore Dewey was in charge of the tug from the navy yard and was aboard with his wife to meet the others of the party.

GOTHAM IN GALA ATTIRE.

Decorations Are General Throughout the Great City.

New York, Sept. 27.—New York has donned gala attire for the Dewey reception. Decorators in many parts of the city began putting up flags and bunting on buildings Monday morning. The rain ceased, and the city blossomed out in a few hours a mass of color. The main scheme of the decorations is blue and white bunting in festoons and pendants, with a lot of small gold eagles interspersed. In the center of the porch is a model of Admiral Dewey in gold. It is flanked by an admiral's 4-starred flag and a Union Jack, outside of which are two American flags, the combination typifying the navy and administration. Above the back of the building is a large painting representing the combined arms of the heroisms of the city, some of them invented for the occasion. This is surrounded by a flag cluster and a gonfalon, below which is a large golden eagle.

From the four flag poles on the roof of the building fly an admiral's flag, the state and city flags and a Union Jack, in the order named, beginning at the west. The poles are all dressed with lines of signal flags, not arranged in any fixed order.

Above the American flag on the pole above the cupola will fly a 75-foot home-ward-bound pennant. Fifth avenue and Broadway do not monopolize the decorations. In every part of town, on the far East and West Sides, where neither the admiral nor any of the persons who will come from out of town to welcome him will be likely to go, shops and houses have been decked out in his honor. In the most out of the way corners flags have been rigged out and portraits of the admiral exhibited. Many of the pictures are of a character to make him with he had stayed in Manila.

The saloons lead in the assurances that Dewey is welcome. Some enterprising novelty manufacturer invented a set of flags each of which bears a let-

ter of the alphabet. Most of the persons who have used these for decoration have arranged them conventionally to form the words, "Welcome Home."

One or two ingenious minds have varied this. Over the entrance to a saloon on the East Side, above One Hundredth street, flutters this motto: "GEORGE, YOU OWN THE TOWN."

A Harlem saloonkeeper has in the

smaller tin boxes, adjoining the big box on the fifth avenue side. He has accommodations for a party of twenty. My friend Wilson, the beautiful young English woman who recently came over here, will occupy a near-by box with her brother, Kenneth Wilson, and a party of friends.

School Commissioner J. J. Little announces that the children's stand at Seventy-second street and Central park west will be 150 feet long, covering the whole park entrance. The stand will be forty feet high, and will have an arched way so that carriages may pass under it. The 2000 school children who will stand on the letters "Dewey, Welcome," on this stand are now being trained by Walter Damrosch. Of the 3000 children now will come from the public schools of Manhattan, 1000 from Brooklyn and 200 each from Queens and Richmond. Besides the music of the multitude of voices, a band of fifty pieces will play at the stand. On the city hall stand 200 children will sing, 100 from New York and 100 from Brooklyn.

A TRIUMPHAL PROGRESS.

Enthusiastic Demonstrations Greet Olympia En Route to Tompkinsville.

New York, Sept. 27.—Long before dawn steam and sailing craft of all imaginable sizes gathered in the vicinity of the southwest channel and swarmed around the Olympia like midges round a light as she lay swinging gracefully with the tide. Her string of signal lights was kept constantly changing, and there was a veritable pyrotechnical display as answers were flashed across the bay to the salutations of passing ships. A search light from Sir Thomas Lipton's yacht Edin was kept flashing around the Olympia until almost daybreak, making the cruiser stand out in bold relief, to the delight of the landmen and the gratification of the watchers on many of the vessels in the bay. Just at dawn the signal lights on the Olympia went out and over the bay came the faint bugle notes of the reveille. Half an hour later the shrill sound of the boatswain's whistle was heard piping the men to clean ship, and soon the sailor lads were seen swarming the decks with swabs and buckets, working with a will and getting the pride of the navy shipshape for her trip to the anchorage off Tompkinsville.

At 6:45 the cruiser Chicago, flying the

at 8:45 and remained chatting with the admiral on the quarter deck until the Olympia weighed anchor. When the Olympia got under way, Admiral Dewey felt the cold strong northwest breeze that was blowing, and sent an orderly for his cape, which he wrapped around him. He wore the undress uniform in which he has been so often pictured.

Admiral Dewey and Assistant Secretary of the Navy Allen had an animated talk on the superstructure of the Olympia, the admiral occasionally leaving his post to go to the gun turret, which he has been so often pictured. Admiral Dewey started for Tompkinsville she was flanked on the right by the Associated Press tug Kuper and on the left by the tug Diligent, and followed by the dispatch boat. All the way up the lower bay the signal boys were kept busy dipping the colors, while the steam ship was kept looking out thanks for the admiral to his admirers. An Italian sailing master, whose flag got entangled in the mizen top mast truck, had to send a man aloft to unhoist the halyards. Admiral Dewey noticed the incident, and without waiting for the Italian captain to dip his colors, had the Olympia's flag lowered, and showed his appreciation by having the stern coated thrice.

As the cruiser neared Fort Wadsworth and Hamilton the helmsmen passed themselves forward, while the marines paraded the quarter deck in full dress uniform, standing at attention, while the ensign was lowered from the mizzen gaff to the monkey gaff and the ship's number was displayed. As the Olympia entered the channel the signal corps on the forts wig-wagged a welcome, which was answered by the ship's signal.

The slopes of the forts were crowded with soldiers, and as the first gun belched forth its welcome they cheered lustily. The faces of the men of the forts were wreathed in smiles as his ship answered gun for gun. A little later the cruiser joined Admiral Sampson's fleet off Tompkinsville, which thundered out its welcome to the commander-in-chief.

Governor Roosevelt, with his entire staff and under escort of the naval militia of the state of New York, will make his official call upon Admiral Dewey on board the Olympia at 1 o'clock tomorrow. He will be accompanied by Gen. Francis V. Greene and all the captains of Admiral Dewey's fleet. The party will be escorted by the steam yacht Allen, manned by naval militia, with the headquarters staff, and several of the naval militia launches. When Governor Roosevelt's official call he will hold a reception on the old frigate, New Hampshire, now used as the headquarters of the naval militia of the state of New York, moored at Tompkinsville.

Flag Lieut. Brumby of the Olympia called on Mayor Van Wyck today. The visit was merely formal, and Lieut. Brumby conveyed to the mayor an expression of Admiral Dewey's respect.

FOR GENERAL REUNION.

Scheme to Bring All Civil War Veterans Together.

Detroit, Mich., Sept. 27.—It is probable that the scope of next year's Army of the Cumberland reunion at Chattanooga will be extended so as to include a general reunion of all the great armies of the civil war. While no definite action was taken to this end at today's final business session, the society's officers are directed to endeavor to bring the project about.

Congressman David B. Henderson, prospective speaker of the house of representatives, and a prominent member of the Army of the Tennessee, was elected an honorary member of the Army of the Cumberland, and also vice president for Iowa, in recognition of his services in behalf of the National park at Chickamauga.

The list of the officers of the society as prepared by the election committee yesterday was formally ratified. Steamer and carriage rides occupied the afternoon.

NEW YORK EPISCOPALIANS.

Diocesan Convention In Session--Interesting Features Expected.

New York, Sept. 27.—The annual convention of the Protestant Episcopal church of the diocese of New York began here today in the Church of the Incarnation. There were 175 clergymen present, besides a number of laymen. Bishop Potter presided at the holy communion service preceding the formal opening of the convention. The service was conducted by the bishop, and Rev. Dr. Morgan Dix, Rev. Dr. Thomas, archdeacon of Orange, N. J., and Rev. Dr. Tiffany, archdeacon of New York.

The convention promises to have some very interesting features, notably that of the election of the standing committee. This committee recommends the applicants for ordination into the Protestant Episcopal ministry. The present committee is that which recommended the ordination of the Rev. Dr. Charles A. Briggs, over whose ordination there was much discussion.

HAVANA LABOR TROUBLES.

Stevadores' and Wharfmen's Strike Over--Railroad Firemen Out.

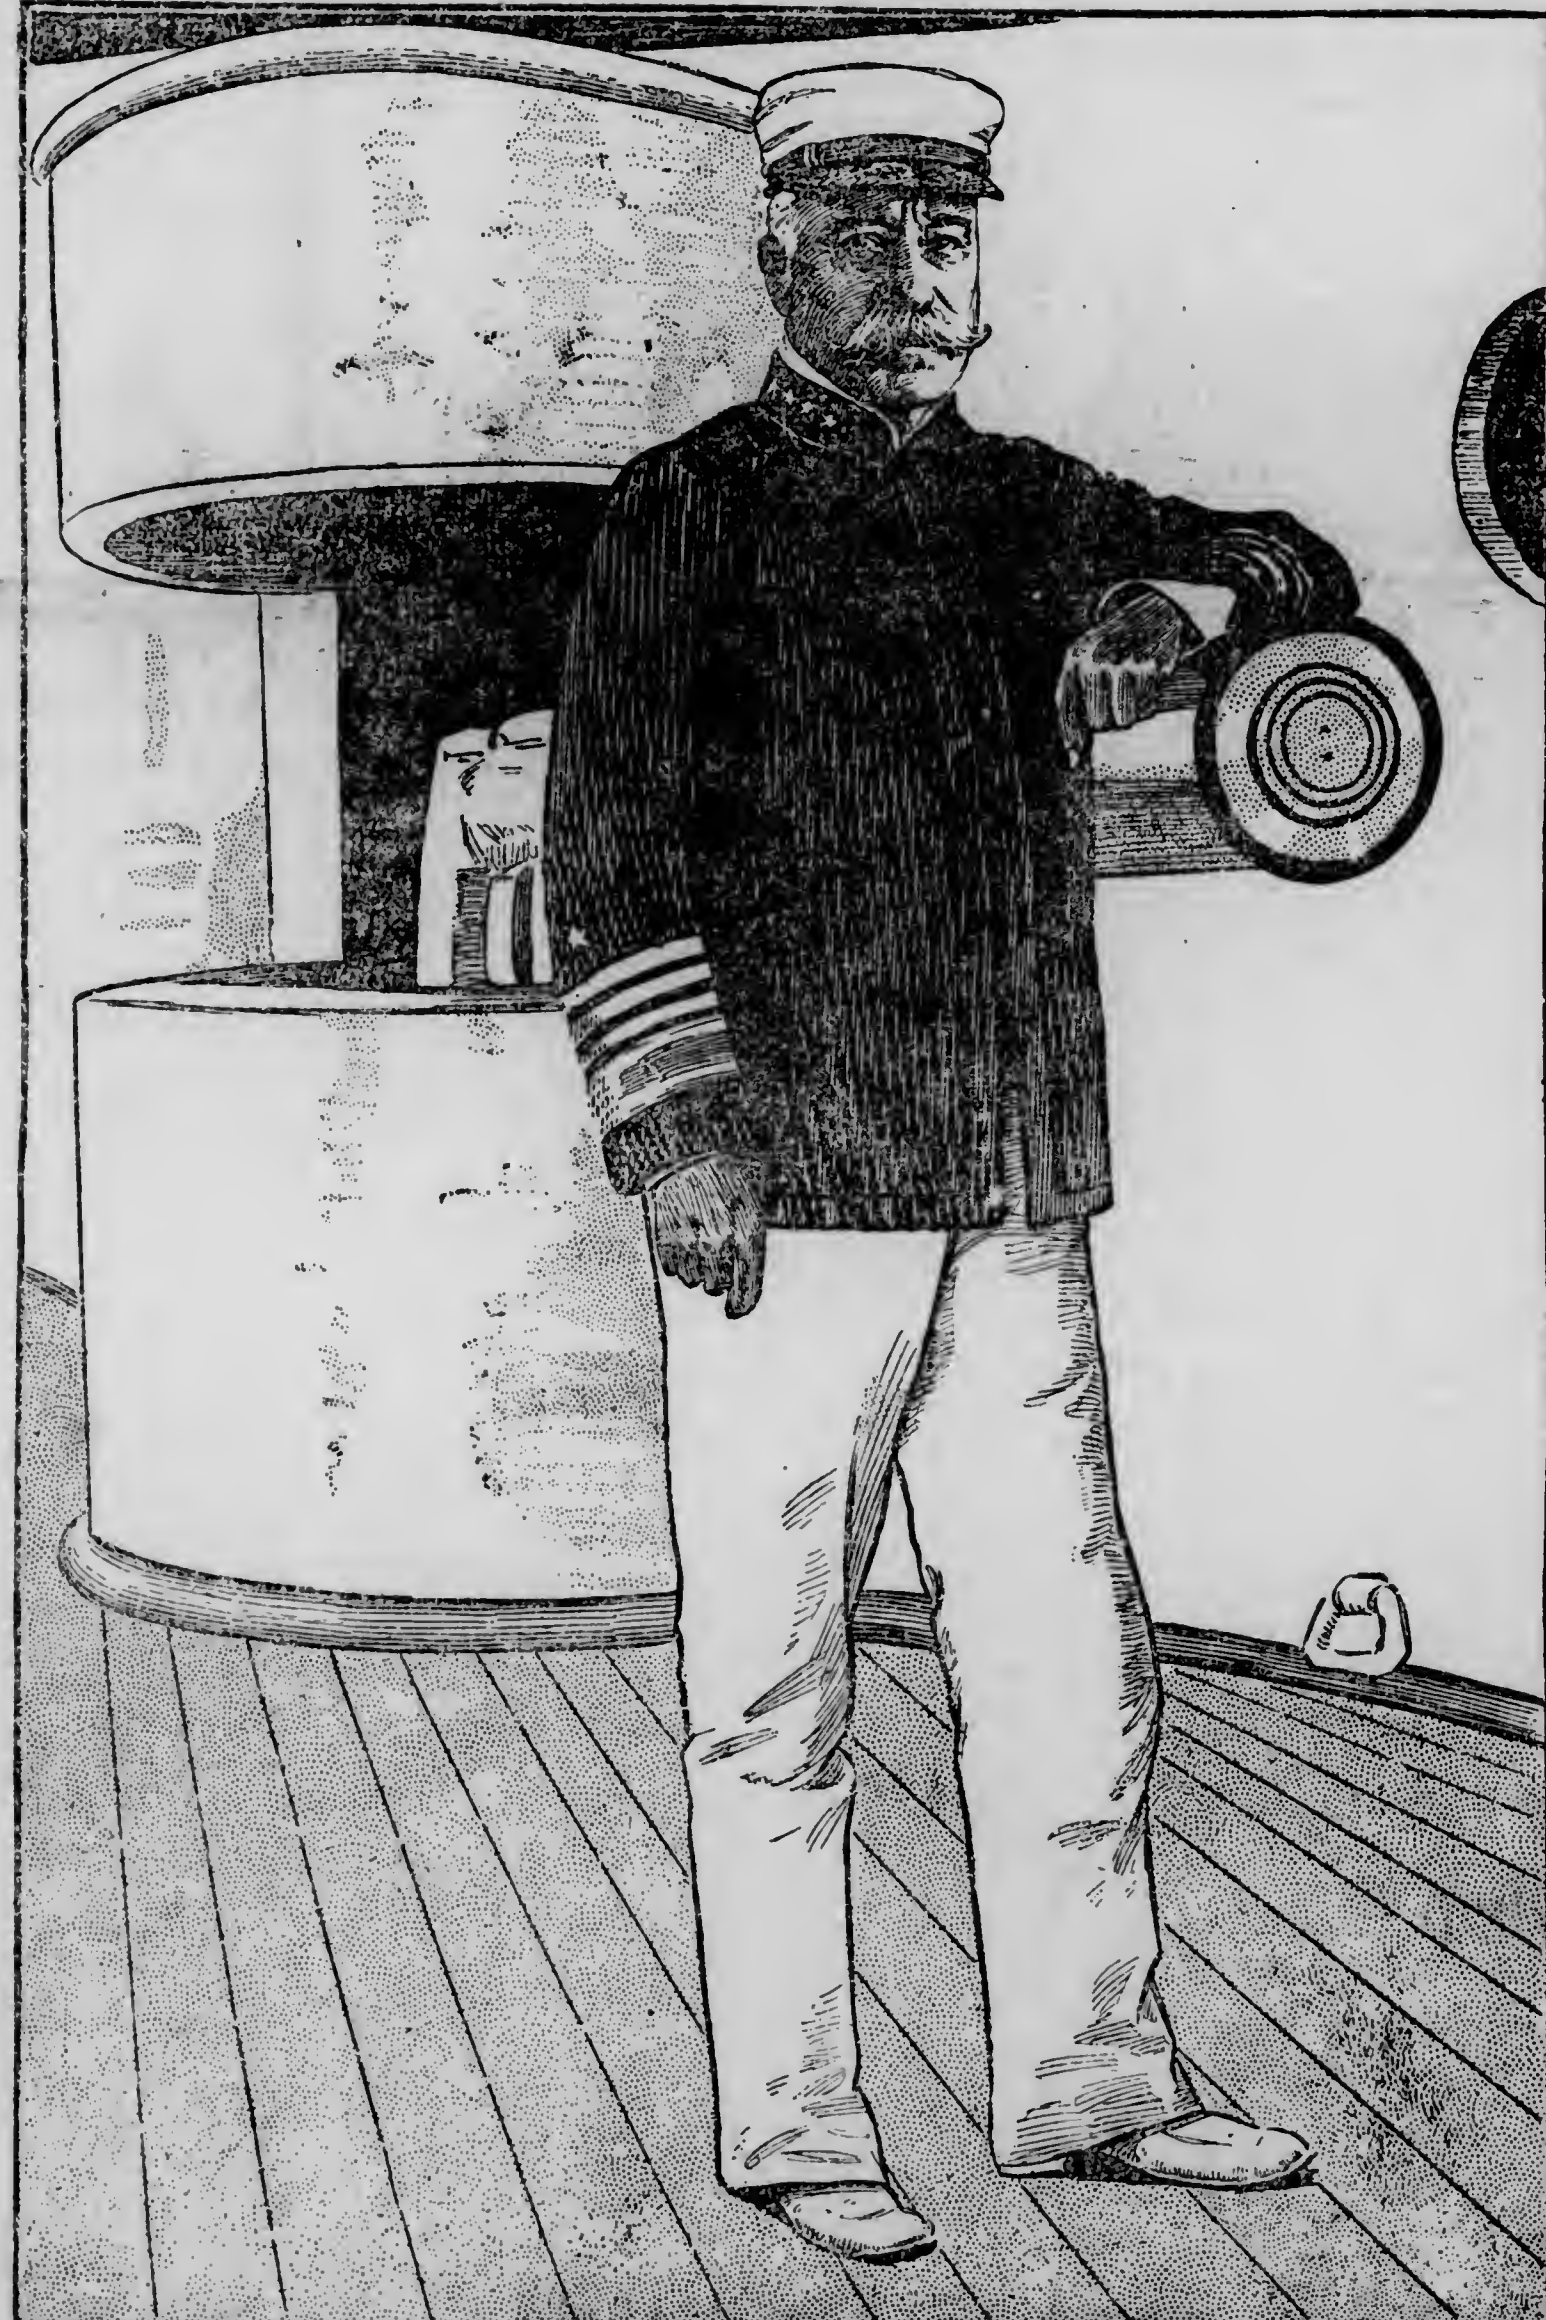

Havana, Sept. 27.—The stevedores and wharfmen, who had been on strike, returned to work today, and the operation of loading and unloading vessels is now in full swing. The cartmen are also working, as are also many of the cabmen. The firemen on the United railways have gone out, and the trains are run by apprentices, under police protection. It is thought the strike will soon be declared off.

DARK HORSE WINS.

London, Sept. 27.—At the second day of the Newmarket first October meeting today, Lord Hastings' bay filly, Maribelle, won the second nursery handicap, Joece was second, and Franz Anthony finished third. The betting was 5 to 1 against Maribelle, Sloan's mount, Elin, was unplacied in the Great Eastern Railway handicap, Leisure Hour, ridden by L. Reiff, was the winner. Seventeen horses ran. The betting was 100 to 6 against the winner and 20 to 1 against Elin.

The October handicap of 500 sovereigns was won by Nitcham, Greedno, ridden by Sloan, finished second. Sly Fox, with "Slick" Martin as jockey, was placed. The betting was 5 to 4 against Greedno, and 20 to 1 against Sly Fox.

Lord Beresford's b. g. Yumbo, ridden by Sloan, won the Hopeful stakes, Sir Walsie Griffith's Betty Field, with Martin in the saddle, won the second. Sir horses ran. Distance, five furlongs. The betting was 7 to 1 against Yumbo and 7 to 4 against Betty Field.

ADMIRAL DEWEY ON THE FLAGSHIP OLYMPIA.

ter of his place a large sign, draped with the flag, on which is printed this invitation:

"Free dinners and drinks to members of the Olympia crew." Dewey drinks of all kinds have made their appearance all over town.

The most popular form of decoration appears to be the admiral's portrait, draped in bunting and exposed in a window. A great many bronze medallions are also exhibited.

Of flags there seems to be no end in the tenement districts. They are not as large as those in Broadway and Fifth avenue, but they make a brave show, fluttering from windows forty or fifty feet above the ground. Next in popular esteem are pictures of Dewey and the national colors, come pictures of the Olympia. Most of them show a ship of enormous proportions blazing away with every gun at a dozen sinking vessels. Other ships of the fleet that sailed into Manila bay with Dewey are shown, but the Olympia heads the list.

Seldom is a picture of one of the vessels of the North Atlantic squadron shown, but group pictures showing Dewey surrounded by the president, the

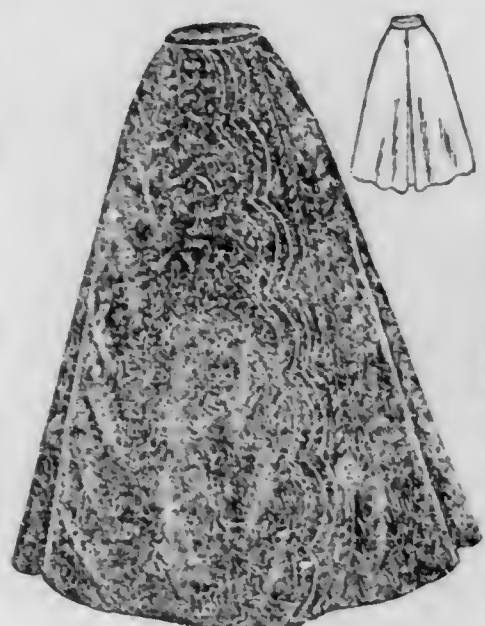

pennant of Rear Admiral Howison, passed in at the narrow, and received a salute from Fort Hancock. As she neared the Olympia her rapid-firing guns belched forth an admiral's salute, which the Olympia returned with thirteen guns, the salute for a rear admiral.

As the Chicago passed close to the Olympia, Admiral Dewey, who was on the quarter deck, returned Rear Admiral Howison's salute and shouted a greeting. The sailors on the Olympia manned the rail and returned the hearty cheers of the Chicago's crew. The Chicago proceeded to Tompkinsville.

At 5 o'clock sharp colors were sounded and the crew of the Chicago were posted fore and aft, to the strains of "The Star Spangled Banner." The admiral stood well aft, at attention, while behind him were grouped Capt. Lambert, George Dewey, Jr., and the officers and men, all at salute as the flag was slowly run up the monkey gaff. At 5:30 o'clock the Dolphin, flying the secretary of the navy's flag, hove in sight, having on board Assistant Secretary of the Navy Allen, who was received with a salute. He went on board the Olympia

OPENING RECEPTION

Young Men's Christian Association Welcomes Friends in Its Remodeled Home.

A HANDSOME PLACE

Improvements Have Added Greatly to the Facilities—Fine Program Given.

The first of the series of receptions which mark the opening of the remodeled Y. M. C. A. building and the beginning of a new year of association work was attended by over 200 business men, their wives, and friends of the association last evening. The visitors were received on the first floor which, with its elegant oak finish and decorations of sweet peas, sun flowers, and palms little resembled the former home of the association. The visitors were given the freedom of the building, and many complimentary things were said of the improvements. The offices, lounge and recreation rooms are much larger than formerly, and better lighted, and the entrance is now directly off the street instead of through the former dimly lighted hallway. The gymnasium has been rearranged and repainted. One of the most notable improvements is the addition of a hand ball court. Two bright, clean, porcelain bath tubs and three new shower baths have been added to the former equipment, and the lockers are now fitted out with wire racks so as to give better ventilation and light in the dressing room.

The audience room on the second floor has been refitted and improved, and frequently last evening it was remarked that it was now one of the best halls in the city for musicals, recitals and similar entertainments. Last evening's musical program included quartet numbers by Miss McKay, Miss Calvery, Cyril Tyler and Charles Appleton. There were also solos by Miss McKay and Miss Appleton. Mrs. Sticker was accompanist.

President John Miller of the association made a short address of welcome, in which he said that if any person had a year ago predicted that the Duluth Y. M. C. A. would have attained such results as the gathering was then celebrating he would have been thought just a little unusual.

C. K. Oler, of Chicago, the international field secretary of the Y. M. C. A., delivered an exceptionally brilliant address, such as would be appreciated by business men. He said that he was amazed at the real property valuation of Duluth was \$2,000,000, and to this probably \$2,500,000 has been added in improvements. He referred to these figures as the principal of the city's assets, but said that he was thinking of another asset of Duluth that was even greater than these. He said the average earning capacity of a young man was \$600, which was equivalent to 6 per cent on a principal of \$10,000 for one year. In Duluth there were 12,000 young men, which meant that there was an asset of \$7,200,000 to be secured.

State Secretary Deek of Minneapolis, also spoke briefly of the state and local work.

This evening the second reception will be held, at which the board of directors will meet at the active workers of the association and the Christian young men of the city for a social conference. This reception does not promise to be as large as last night's gathering, but it is said will be much more important. The Y. M. C. A. staff will furnish the music.

NOT UNDER OPTION.

Weyerhaeusers Are Looking Over Howe Mill at Tower.

J. C. Ketchum, of Tower, manager of the Howe Lumber company, was in the city today. In reference to the story that the Weyerhaeuser company have an option on the Howe Lumber company's property he said that it is for sale, but that there is no option out. The property has been for sale since July 15 and one of the Weyerhaeuser representatives has been up there recently looking it over with a view to a possible purchase. Mr. Ketchum says, "If the property is not sold within a very short time Mr. Ketchum says the company will go ahead and build a new mill."

Millinery Opening.

A \$15 pattern hat will be given to the lady guessing nearest number trimmed hats and ostrich feathers in stock Friday and Saturday. Miss A. M. Seigne, 1215 Tower, West Superior, Wis.

At Lester Park

There will be a dance this evening at the pavilion. Tomorrow afternoon the Old Settlers' association of Duluth and Superior will have their gathering there, but there will be no dancing tomorrow evening.

High School

will open at the Duluth Business University, Monday evening Oct. 2. A special rate of \$3.00 for a full 6 months' course instead of \$20.00 the usual rate will be allowed, all who begin the first evening. Commercial, Stenographic and English courses will be taught thoroughly, same as in day school.

In the meantime the college office will be open from 7 to 8 each evening, when all interested are requested to call.

DULUTH EVENING HERALD.

WEDNESDAY, SEPTEMBER 27, 1909.

TAGALS

COME IN

Mindanao Islanders to Accept American Rule For Protection From Moros.

NATIVES OFFER AID

Maccabebe Tribesmen Tender Help--Spanish Vessels Barred From Ports.

Manila, Sept. 27, 9:25 a. m.--The American authorities have declined the request of Gen. Jaramilla, the Spanish officer, who is setting Spain's military affairs in the Philippines, to send a vessel under the Spanish flag to collect the Spanish prisoners at insurgent ports, as stipulated by the Filipinos on the ground that the ports are closed; that such a step, therefore, would be unlawful, and because they declined to accept the Filipinos' dictation. The authorities are inclined to send an American vessel. The Spanish committee therefore will return to the insurgent lines and endeavor to effect an arrangement for the delivery of the prisoners on board an American vessel. Aguinaldo has issued a statement, saying the warlike activity of the Americans has prevented the return of the prisoners as intended, but they will be delivered up by Oct. 19. The Tagals of the island of Mindanao have expressed their readiness to accept American sovereignty in exchange for protection against the harassing Moros. A native officer offered Maj. Gen. O'Neil Maccabebe tribesmen to fight Tagals of the Laganas to be destroyed. The troops engaged in the fighting at Cebu belonged to the Nineteenth Infantry, Sixth Infantry and Twenty-third Infantry and Sixth artillery.

HE COMES HERE

President's Western Trip as Now Arranged Includes Duluth Oct. 13.

Washington, Sept. 27.--The itinerary of the president's Western trip, as arranged yesterday afternoon, is as follows: Leaving here on Oct. 4 the party will proceed to Quincy, Ill., arriving there on the 6th. They will go to Galesburg on the 7th, and to Chicago the next day, reaching that city at 3:30 p. m. On the 11th they will be in Evansville, on the 12th in Minneapolis, the 13th in Duluth, the 14th in Fargo, and Aberdeen the 15th, in Sioux City the 16th, in Milwaukee the 17th and in Cleveland the 18th.

HOMISON GOT AN OVATION.

The Chicago Reaches New York--Mistaken for Olympia.

New York, Sept. 27.--The United States cruiser Chicago, flagship of Rear Admiral Howison, reached this port today from a long cruise, during which she touched the coast of Africa, and visited Port Said. The cruiser has anchored off Tompkinsville, S. I., and took a position next to the ship Lancaster. A few moments later the blue flag on Rear Admiral Sampson's ship was lowered and a red substituted, indicating that Sampson was no longer in command of the fleet here. As the Chicago was proceeding up the lower bay, she was mistaken by the officers of the forts for the Olympia. Dewey's flagship and another ship, which carried seventeen guns was fired. The salute was returned by the Chicago and was a signal for a general demonstration along the shore. Cannon were fired and small arms discharged, while the ferry boats and railways excitedly started a deafening chorus of whistles.

VOLCANO AT WORK.

Victor B. C. Sept. 27.--The officers of the battleship were on board when the volcano at Mount Pinatubo, near Manila, became active about three months ago, sending broad streams of lava down its sides. No damage was done, as the island is uninhabited. When the battleship was going into Calcutta, the British battleship Tennessee was stranded off the Indian river. For three days the battleship worked at her before she was saved.

AN OREGON TRAGEDY.

The Dallas, Oregon, Sept. 27.--News has been received here of a tragedy which occurred about five miles from here yesterday, when Mrs. W. T. Gyon drowned herself and her two children, a boy of 1 year and a girl of 1 year, in the Des Chutes river. Family trouble is said to have caused the woman to commit the deed. The bodies were recovered today.

JOHN REVOLUTIONISTS.

New York, Sept. 27.--A dispatch to the Herald from the Port of Spain, Trinidad, says: Gen. Maroon and Hon. have been in command of the government forces in the state of Maroon, Venezuela, have joined the revolutionists with all their arms. The revolutionists under Gen. Maroon attacked the coast guard at Rio Carito. A gunboat was captured with a loss of four men killed and two wounded.

FOOTBALL STOPPED.

Middleton, Wis., Sept. 27.--The Athletic association of Middleton has passed a resolution that no more football games shall be played this season. Games already scheduled have been canceled. This action is due to the death of Arthur Kelley a member of the football team, who died at Meriden hospital from injuries received in the game with the Meriden high school on Saturday last. Similar action is expected on the part of Meriden school.

BANKRUPTCY DECISION.

Dubuque, Iowa, Sept. 27.--Judge Shiras yesterday established a precedent in bankruptcy here. He held that one creditor of a firm can file a petition and have other members declared bankrupt on the same sufficient cause is given. If the party alleged to be bankrupt does not contest the prayer of the petitioner will be granted.

SILBERSTEIN & BONDY CO.

SILBERSTEIN & BONDY CO.

SILBERSTEIN & BONDY CO.

SILBERSTEIN & BONDY CO.

Store Notes for Thursday--Every Item Interesting Because of Their Being Seasonable and Correct in Style and Absolutely Reliable in Quality.

The store is filled with interesting merchandise, and the large daily attendance tells more than newspaper type the value of shopping here and the appreciation of the people in our offerings. Shop around and judge for yourself the truth of our announcements that this store sells better merchandise for less than any store at the head of the lakes. Compare our offerings with any in this city and see if our assertion is not true--we court it. High class Costumes, Wraps and Jackets for less than anywhere at the head of the lakes, and styles that are not shown elsewhere in this city or community. The new arrivals of high grade dress fabrics in the dress goods store have won high favor from among those that have been here the past few days (the sales almost double that of previous years) tell plainly of the splendid values placed before you.

We Place Much Stress Upon the Taste

displayed in this Superb Collection, not forgetting, of course, to mention the selection at your command. Worthier Garments have never graced the rooms of any establishment in the state, we think that we possibly carry fewer numbers of one kind. Europe designs the best styles in Cloaks, and the worst--it is knowing how to choose and reject, to copy and combine the good features and omit bad ones, together with close personal attention to details, that has left THIS STORE unrivalled among Duluth stores, for Women's outerwear. Tomorrow's showing is worthy of the store, and of the public whose appreciation has made the store. The very highest excellence in artistic tailoring selected by one of our own firm among the very best makers in the land.

Many new styles will be shown in Millinery that did not arrive in time for the opening. Also many medium priced hats of more than ordinary interest. The "Strathmore" is a new hat just received and which is inclined to become very popular.

Handsomeness of Oxford Gray Homespuns--

Tight-fitting jackets, double-breasted and new reverse skirt tailored. Habit skirt--opening side front, suit lined throughout with black taffeta. A garment fully in keeping with anything shown in this city at \$25.00.

Our price \$26.50

Handsomeness of Oxford Gray Costumes with Snowflake Effect--

of Scotch Tweed material. Jacket double-breasted, light-fitting, velvet collar; skirt perfectly plain front with scalloped opening at back; jacket lined with slate-colored silk. This costume full \$30.00 value.

Our price \$23.50

Handsomeness of Imported Black Cheviot, Jacket single-breasted, fly-front, silk-lined, skirt made perfectly plain; of full \$14.75 value.

at \$14.75

Handsomeness of Black French Venetian Cloth--

Artistically trimmed with silk rouching, jacket and skirt lined throughout with fine black Taffeta silk; jacket tight-fitting; skirt of entirely new Autumn shape. This costume is an exact copy of a Parisian model at \$25.00. This on display on sale here.

at \$55.00

Handsomeness of Checked English Tweed--

Self goods of quiet-toned gray; jacket tight-fitting; skirt beautifully tailored, and with entirely new tunic effect, lined throughout with black Cheviot. A garment that no tailor in this city could make for you for less than \$65. On exhibit in the Cloak Room.

Our price \$35.00

Jaunty Jackets--

Silk lined, of extra good English Cloth, in black and color perfect, full, round correct hang for Autumn & full \$12.50 value.

\$8.75

Handsomeness of High-Class Women's Jackets--

Of best quality, in the highest style, with every new style, including velvet, cashmere, and full \$14.75 value.

\$11.75

Rich, Elegant Jackets--

Of high-class English Kersey Cloth, in black and color perfect, full, round correct hang for Autumn & full \$16.50 value.

\$16.50

Women's High-Class Golf Caps--

None other like them in the city. Beautifully tailored in the very best style, including velvet, cashmere, and full \$7.50 value.

\$7.50

For the Miss and Little Ones--

Tasty, stylish jackets of heavy wool, lined with high quality velvet, and full \$5.75 value.

\$5.75

First showings of "Ziboline" Plaid Skirts.

Entirely new hang and overskirt effect, in decidedly new and handsome colorings of Peacock ground with black and green combinations, myrtle ground with black over-plaid effect. \$15.00 would be a very modest price for any dressmaker to ask. They are ready here.

at \$11.50

We also show many new and striking effects in Dressy Plaid Skirts.

In original color combinations of browns, blues, greens and grays that are of splendid \$10.00 value, are ready here.

at \$7.50

Skirts of Black Crepons, Cheviots, Maltese, Serges and Homespuns.

plain or effectively trimmed, at-- \$3.75, \$5.50, \$6.75, \$8.75 \$9.50 and up to \$17.50

at \$5.75

New Silk Waists

For party, theater or street wear--in the New Autumn shades. Our leader is a handsome line of Taffeta Waists, beautifully corded and tucked--that would fully cost you \$10.00 to have made by any stylish dressmaker. Ready here--

at \$6.50

We also desire to call your attention to our Famous Black Taffeta Waist at \$5.50 which has gained such a high reputation for itself in this city.

We also show effective styles in heavy Satin Waists, beautifully tucked and corded.

at \$5.75

This lot includes Plaid "Foules," Plaid "Zibolines," Striped "Zibolines," Plain "Zibolines," French

Venetians and Broadcloths, fine French Cheviots and Amazon Cloths, making our already well-filled assortment more attractive than ever--TO ANY WOMAN CONTEMPLATING A NEW GOWN, WAIST OR SKIRT. In all modern fashionable fabrics the supremacy of this stock is generally conceded. Dame Fashion has decreed that the following fabrics are the proper things, namely: Silk Crepons, Silk and Wool Crepons, Silk and Wool Crystals, Mohair Crepons, Venetian Cloths, Broadcloths, Zibolines, Cheviots, Homespuns, English Coverts, French Mohair Crisp Cloths, Amazon Cloths, Poplins and Granites. The leading shades are reds, blues, browns, greys and helios. For novelties are bought only in very short lengths so as not to make the patterns common, as it is not the ambition of this store to see how many yards of plaid we can show--which seems to be the great drawback with so many dress goods stores. Kindly scan the list below and compare with any store at the head of the lakes as to price, style, quality and variety of assortment.

Black Silk Crepons--Pre-eminently superior to anything in this market \$3.75

Black Silk Crystals--Peerless and alone for beauty and styles; the yard \$3.50

Black Mohair Crispes--In irregular stripes and unique fancy designs; the yard \$2.25

Black Mohair Crispes--In fancy stripes and raised dots; the yard \$1.50

Black Mohair Crepons--In Hister and matalasse effects, at \$2.50, \$2, \$1.75, \$1.50, \$1.25, down to, the yard 98c

Black Venetians--Fashion's favorites for tailor made skirts; 58 in. wide, at the yd., \$2.50, \$2, \$1.50 and \$1.25

Black Imported Cheviots--Please compare these with what you find around town; the yd. \$1.75, \$1.50 and \$1.50

Black Zibolines--The newest and handsomest of all cold weather fabrics; the yard, \$2.75, \$2.00, \$1.50 and \$1.25

Black Poplins--Silky and elegant; the yard \$1.75, \$1.50 and \$1.00

Plaid Zibolines--Made of pure camel's hair; colors, helio, navy, brown, garnet and gray; strictly up-to-date, the yard \$1.50

Fine Coverts--For an elegant traveling gown; 52 inches wide; the yard \$2.00

Heavy Venetians--You'll not find these goods on the job lot counters; colors, tan, dark brown, gray, smoke blue, cadet and navy; at the yd., \$2.50, \$1.50 and \$1.00

Amazon Cloths--Twilled like a whipcord; colors, castor, seal, navy, garnet and plum; exceptional values, yard \$1.00

Ziboline Plaids--Worth coming to see as works of art; color combinations are cerise, myrtle and gold; black, claret and delf blue; plum, gray and lilac; garnet, gray and black, navy cadet and black; terra cotta and ultra, marine blue; price, yard \$1.75

Plaid Foules--The color combinations are peculiarly Frenchy and handsome; you'll say so when you see them; price, the yard \$1.25

Heavy Skirting Plaids--Extra heavy and full assortment, at the yard, \$2.00, \$1.75, \$1.25 and 75c

Homespuns--Unrivalled at the price; 58 inches wide; the yard \$1.00

ending at 5 a. m. Central time, Oct. 12.—

There were not there to represent their own

individual opinions, but to carry out

the policy of our government. They

were supposed to act in accordance with

instructions received from Washington,

and the terms of the treaty negotiated

with the Spanish commissioners were

outlined by President McKinley and

his cabinet. Whatever mistakes were

made are the results of the policy for-

mulated by the administration at

Washington, and they can hardly

be charged up to those who carried out

Paris the orders they received from

Washington. If the Milwaukee paper

is anxious to place the blame where it

belongs for the unwise features of the

peace treaty, it will charge the unwise

action to the McKinley administration

and not to its commissioners.

There never has been any reasonable

excuse given for the payment of \$20,-

000 to Spain for the cession of her

sovereignty over the Philippines. In

the first place her sovereignty over

these islands was largely imaginary.

It did not extend far from Manila, and

she was not able to "deliver the goods."

Instead of obtaining sovereignty, we

bought into a war. It has been an ex-

cessive transaction. The lowest esti-

mate of the cost to us of the Philippine

war on its present scale is \$100,000,000

a year and that cost is being steadily

and heavily increased. In other words

we are taxing ourselves at the rate of

\$1.25 per capita per year to obtain

sovereignty over these far distant

islands. It is not unlikely that the

cost is nearer \$2 per capita. This is

in addition to the \$200,000,000 that

Spain and what do we get in re-

turn? Much has been said about re-

turning up there a new market of great

value to our commerce, but a little ex-

amination of facts will show how little

prospect there is of finding such a mar-

ket in the Philippines. Our total ex-

port trade to the Philippines last year

amounted to the insignificant sum of

\$40,000. There are commercial houses in

Duluth that do several times as much

business every year as the total amount

of all the sales by all the business in-

terests of the United States to all the

people in the Philippine Islands. If we

made clear 10 per cent on everything

we sold in the Philippines last year we

had a profit of about \$40,000. This

would not begin to pay the present ex-

penses of our war of conquest for a

single day!

The Wisconsin is right in asserting

that the Philippine deal with Spain was

a very bad bargain. Senator Davis has

made a mistake in defending it, but

the first great error was committed by

the administration at Washington,

when President McKinley instructed

our commissioners at Paris to offer

Spain \$20,000,000 for the cession of her

sovereignty over the Philippines.

WILL COME TO DULUTH.

The statement is made by the Asso-

ciated Press bureau at Washington

that President McKinley will visit

Duluth during his forthcoming visit

to the Northwest. All the arrangements

for the president's trip have not been

completed, and consequently the names

of all the places he will visit have not

been given out. It is expected that the

list of final destinations will be given

by the secretary of the president's trip

will be made public before the close of

the present week.

Months ago, when the subject of the

president's Western trip was first

mentioned, The Herald's Washington

correspondent reported that the pre-

sident would like to come to Duluth and

would include this city in his list, if he

had sufficient time at his disposal. It

was suggested by The Herald that a

formal invitation be extended to him

to visit this city, and this was done.

Lately the outlook has not been regard-

ed as very promising for him to be able

to come here, and the idea of receiving

a visit from the chief executive of the

nation had been practically abandoned

by Duluth people. It is therefore

somewhat of a surprise as well as a

pleasure to learn that it has been

decided that our city will be favored

by a visit from President McKinley.

Only a few details of the president's

proposed trip have leaked out. Of

course he will visit Chicago to take part

in the fall festival and the exercises

connected with the laying of the corner-

stone for the new postoffice building.

ROYAL BAKING POWDER

ABSOLUTELY PURE

Makes the food more delicious and wholesome

ROYAL BAKING POWDER CO., NEW YORK.

Last night a dispatch from Washington said that President McKinley will visit DULUTH on Oct. 13. This did not suit the Superior paper with the Duluth annex, so it deliberately struck out the word "Duluth" and substituted the words "head of the lakes." Consequently its Duluth paper said in the headlines that the president would visit Duluth, and its Superior paper announced he would visit Superior, the mutilated dispatch doing duty in both cases.

And yet the publisher of the News Tribune has the effrontery to claim to Duluth business men that he is running a newspaper in the interests of Duluth, while at the same time he stabs Duluth in the back whenever the opportunity presents itself.

PRICES UNDER THE TRUSTS.

Recently the American Anti-Trust league had representatives call on 500 manufacturers in New York city as to the effect of the trusts on the prices of commodities. The agents turned in reports at the time of each interview.

In addition to the \$200,000,000 that we had in the Philippines. Our total ex-

Dressmakers' supplies, advance in everything from 15 to 25 per cent. More capital needed to carry stock.

Envelopes, 40 per cent, and notice out for a further advance.

Knit wear, 25 to 50 per cent.

Builders' hardware, 45 per cent.

Iron beds, 35 to 50 per cent.

Brooms, 40 to 50 per cent a dozen.

Copper wire, 150 per cent.

Chairs, 25 to 35 per cent.

Furniture, 25 per cent.

Flour, 20 cents a barrel.

Glassware, 20 per cent.

Hair, delicatessen, 3 cents a pound.

Iron, 100 per cent.

Knit wear, 25 to 50 per cent.

Photo paper, nearly 100 per cent.

Shoes, advance in all grades 10 to 25 per cent.

Spool cotton, from 8 to 25 per cent.

Salt, 10 to 15 per cent.

Stoves, 25 to 35 per cent.

Tobacco, from 20 to 50 per cent.

Wall paper, 25 to 30 per cent.

All the above commodities are manu-

factured or controlled by trusts. The

tariff duty on these articles ranges from

up to 60 per cent. Some of the trusts

have not raised prices to the full extent

of the tariff. They have not yet ex-

ported all they can, and consequently

consumers may look confidently for a

further increase. Some have gone to the

extreme and have raised prices to an ex-

ample, and on the Pacific coast, where

their prices are highest, they are already

importing tinware. From the above

facts and figures it will be seen there is

a remarkably close correspondence be-

tween the increase of prices in the

articles enumerated and the tariff duty

on them. These figures have one plain

meaning to a fair-minded man. The

tariff is fostering trusts, and the trusts

is fostering the tariff. The tariff is

fostering the protection of the tariff

from commodities manufactured or

controlled by trusts would be a cer-

tain means of striking a heavy blow

at these evil combinations.

The Springfield Republican thinks that

Senator Foraker may be excused from

defending trusts in his opening speech

in the Ohio campaign, since Mr. Hanna

platform this fall is against the trusts.

and the opposition to produce

evidence showing that trusts are

harmful. Some one before long will

meet them both that the Ohio Republi-

cans platform this fall is against the

trusts, whether or not the party leaders

and that may prove embarrassing. The

remedy is for party platforms to stop

trying to fool people.

Lord Kitchener seems as accomplished

as a courier as in war. It is said that

Queen Victoria recently asked him if

he had heard of him was true—that he

did not care for any woman. He replied

that it was true, with one exception. The

queen asked for the name of the excep-

tion, and was much amused when the

stirring replied, "Your majesty."

Brewers are interested in the claim that

liquid air may be used instead of ice in

the manufacture of beer and that one

gallon of it, costing 1 cent, will do the

work of eighty-five pounds of ice. Con-

sumers of the beverage are concerned

with such a process the froth will be

greater than ever.

Martin Dooley's parting words to a Bos-

ton interviewer were good. He borrowed

the language of the hero of Fort Chabai,

St. Quentin, when addressing the chief

of the Paris police from the house-

Autumn and Winter Opening

Duluth's BIG STORE tenders to its patrons its usual Fall Reception and Exhibition of Modern, Up-to-Date Merchandise. We think it unnecessary to enter into the details of advantages each and every department has over the departments to be found in our competitors' or imitators' stores. FOR THE REASON, that, as a rule, every lady at the head of the lakes makes it a point to be present on our Opening days, furthermore, we would rather have you form your own conclusions.

THIS STORE CLOSES every night at 6 p. m., except Saturdays, when it remains open until 10 p. m. Come and see the crowds here Saturday night.

MUSIC every day and Saturday night. Come and hear Edison's latest wonder—his famous Concert Phonograph, distinctly heard all over The Big Store.

MAIL ORDERS promptly and carefully filled; samples furnished. Anything unsatisfactory can be exchanged or returned.

Bargain Counter No. 4.

Stock of Misses', Boys' and Infants' Shoes
complete, embracing all the new lasts in
Rubber or Lace, with plain or fancy vesting
On. Our prices are correct.

Free Help

Weak Men, do not despond, **CALTHOS** will restore you.

100,000 Special Trial FREE Treatments of the Great French Remedy Have Been Imported.

The Von Mohl Company's Wonderful Offer.

NO C. O. D. OR DEPOSIT SCHEME.

The Von Mohl Co., of Cincinnati, O., known the country over as the largest importer of standard remedies in the United States, have achieved the most remarkable success ever known in the history of medicine, viz., "Calthos," their marvelous French remedy for lost manhood. They were the first American concern to hear of the wonderful discovery, and it was given the public in France, and at once sent a trusted representative to Paris, who secured the exclusive rights for his preparation in North America.

The past year "Calthos" has become as famous in America as it is throughout Europe. Over one hundred thousand sufferers of lost manhood in all its most terrible forms have been cured, and have written the Von Mohl Co., telling of the joy they experience in having the functions of perfect manhood restored. Not one of these letters has been, or will be made public, because the Von Mohl Company has made it an imperative rule to treat all correspondence of the Calthos dispensary of their business, and to keep it confidential. Every year letters from patients are received, and among them many are from men with national reputations in public and private life.

The Von Mohl Company has just imported 100,000 treatments of "Calthos," fresh from Dr. Jules Laverne, the greatest physician in all France and the great discoverer of this remedy, and now it is sent to all men suffering from Lost Manhood, Spermatorrhea, Varicocele, Small Pains or Weakness of any nature in the Nerves or Sexual Organs, to send their names and receive a five days' treatment of "CALTHOS." After using it five days the sufferers will find new vigor in their organs, new force in their muscles, new blood in their veins, new animation, and rapid progress toward the health and vigor of normal manhood.

THIS LIBERAL OFFER IS GENUINE. There is no quidding C. O. D. or deposit scheme connected with it. The five days' treatment is sent by sealed mail wrapped in a plain package, and is left printed instructions accompanying the preparation, so that each patient becomes his own doctor and cures himself at home. Cures are effected at all ages from twenty to eighty years. There is no case recent where the stage of callosity or insanity has been reached, which it will not radically, quickly and permanently cure. Sexual weakness does not cure itself. It grows worse from day to day until the victim is beyond all hope. Each day aggravates the mental and physical ailment.

Don't delay, but send today for the **FREE** five days' trial treatment. You can send your name in the full knowledge that the "CALTHOS" dispensary is strictly confidential.

THE VON MOHL COMPANY, 170 B. Cincinnati, O. Largest Importers of Standard Preparations in the United States.

WEST DULUTH

The Rebekahs "got back" at the old Fellows Tuesday night for the surprise the latter gave the former last week. The Rebekahs invaded the Odd Fellows' quarters with a supply of good things and the Odd Fellows surrendered at discretion. A number of musical and literary selections were rendered and then the Rebekahs made each Odd Fellow take a few stitches to help out on a quilt that the Rebekahs are making. Dancing concluded the entertainment.

WEST DULUTH DRIFTERS. A party of fifteen Redmen and members of the Poonahontas order went to the lake for a day's fishing. They returned, returning this morning. They report having a fine time. The new lodge is a large one.

The football team is practicing every night in the Armory. The team started in by practicing at the East End and here on alternate nights, but this proved more inconvenient than having one place for practice at a central point.

Mr. and Mrs. C. H. Bagley have returned from Deerwood. The Mandolin club has been practicing for the winter. Professor Robinson has commenced the winter's series of lessons with a large class.

It has been decided to call off the baseball game with Superior arranged for Saturday at the home of Mr. Hayward at Baptist hall last night was largely attended and was a very enjoyable affair.

Miss Thelma Johnson and E. A. Wilson were married last night at the home of the bride's parents, Rev. L. Sanderson, performing the ceremony. Mr. and Mrs. Wilson have gone to housekeeping in West Duluth.

Rev. Gorman, of Lake Park, Minn., will be installed as the pastor of the Norwegian Lutheran church, West Duluth, next Sunday by Rev. N. E. Thvedt, pastor of the First Norwegian Lutheran church in Duluth.

Buy your coat of A. Bagley.

VANDERBILT AGENCIES.

The late Cornelius Vanderbilt usually dressed in black even when not in mourning. He was dressed in black when he died, and it was a black suit which he wore when he died.

A substitute a mistake once made by the station of the Fifth Avenue Presbyterian church. Mr. Vanderbilt is said to have enjoyed the joke more than any anybody else who heard it, says a New York paper.

Dr. Hall's church, Mr. Vanderbilt, "I am going right by the church on my way down. Give me the bundle and I will let the sexton have it."

The sexton was accepted and he started with the bundle in his arms. When he reached the church he found the sexton there. The latter received the bundle thankfully, with many words of appreciation.

NEWS OF THE LAKES

Tug McCarthy Caught in Gale on Lake Michigan and Is Missing.

LIKELY WENT DOWN

The Steamer Centurion Went Aground at the Foot of Sugar Island.

Chicago, Sept. 28.—(Special to The Herald.)—The tug McCarthy, bound from Chicago to Toledo, was caught in the gale on Lake Michigan last night between the Straits and Green bay and is feared went down. The McCarthy had a crew of about twenty men, and was carrying a load of lumber. The tug was last seen about midnight. The McCarthy was a small tug, and was not equipped for the rough weather. The McCarthy was a small tug, and was not equipped for the rough weather.
